

GUARD BILL MEETS OVERWHELMING DEFEAT

H.G. STEFFRUD
IS TRIED ON
LIQUOR CHARGE

South Third Street Restaurant
Man is Arraigned Before
Judge Fowler in Cir-
cuit Court

POLICE WHO CONFISCATED
LIQUOR FIRST WITNESSES

Ownership of Auto Containing
Alcohol is Denied by
Steffrud

THE trial of Helge Steffrud, charged with the illegal possession of intoxicating liquor, was begun in circuit court Wednesday morning before Judge Chester A. Fowler of Bond du Lac, who is in the city to hear cases that have been sworn away from Judge Higbee.

Most of the liquor that Steffrud is charged with owning was found in a garage on an alley running from Pearl to Jay street, west of Third street. Steffrud's restaurant is at 223 South Third street, near the corner of Jay street. The garage, owned by the Tag Hart company, and directed by the Tag Hart company, is not connected with Steffrud's place.

Derr Talks of Finding Beer
Derr, who was the first witness called, told of driving through the alley one night some weeks ago and seeing two beer cases partly covered with old quilts and auto robes in the alley. Investigation revealed what Derr believed to be home brew in the beer cases. He reported the find to the police. Officers were sent back with Derr to investigate. A 12-gallon barrel of alleged moonshine, also was found in the alley. The beer and moonshine, so called, were taken to the police station in Derr's car.

The police also picked up Leo Ann of Stoddard, whom they found entering the alley. At the police station it developed that Ann had been on the fruit of a drink and that he had rolled the barrel of moonshine out of the garage. Ann, the police learned, had been hunting for a sleigh in a barn in the alley and had wandered into the garage where the liquor was alleged to have been "planted."

Police are Witnesses
Folkertsen, Leuth, Rick, Tikal and Thompson, who played a part in getting the first lot of liquor to the police station, also were called as witnesses. Leuth and Tikal told of taking the first batch of liquor to the police station. Rick, who was sent to the garage by the night police sergeant, told of entering the place and searching an automobile there and of finding seven five-gallon tins of what he thought was alcohol in the car. He also testified that the liquor was taken to the police station and the auto was also confiscated, hauled to police headquarters and then placed in the overhead garage.

Fred H. Hartwell, who is defending Steffrud, questioned Leuth and Rick as to when they knew of the ownership of the auto in which the alleged alcohol was found. Leuth said Steffrud, who had been brought from his restaurant by the police before they searched the garage, told him that he didn't own the car, that he had sold it to a man but that a Mrs. Shannon had signed the note. Rick said Steffrud told him that he had sold the car to a man named Smith, that \$5 had been paid down on the car and Mrs. Shannon had signed the mortgage.

Eight Women on Jury
District Attorney Gordon is prosecuting the case. There are eight women and four men on the jury. The jury is composed of Oscar Christensen and John Horstman of Bangor, Herman W. Hegge and Reuben N. Trane of La Crosse, and Agnes Erickson, Frances Hirscheimer, Edna Greenwaldt, Anna A. Ott, Della Palmer, Emma Stauffer of La Crosse, Emma Smith of Onalaska, Louise Wolf of the town of Campbell.

PERMISSION GIVEN
BADGER CITIES TO
ENGAGE IN BUSINESS

MADISON, Wis.—The assembly of the Wisconsin legislature Tuesday favored the participation of cities in private business when it engrossed two bills both of which would empower municipalities to handle food products in competition with existing enterprises.

By engrossing the Gauer bill permitting Milwaukee to establish a department of markets for the purpose of dealing in food products for distribution to citizens the lower house recorded its favor for municipal participation in business.

Allied Pact
Unacceptable
Turks Decide

CONSTANTINOPLE.—Advices from Ankara state that the Turkish national assembly has decided that the Lausanne treaty is unacceptable. The government, however, was authorized to continue negotiations on condition that negotiations be settled in conformity with the complete independence of the Turkish nation, and all occupied territories be evacuated immediately after the signature of peace.

APPEAL MAY BE
TAKEN FROM UNION
DEPOT DECISION

Some City Officials Believe that
Railroads Will Go Into
Court With Case

OTHERS POINT OUT THAT SITE
CHOSEN IS CHEAP FOR CARRIERS

General Commendation of Decision
Heard on Every Hand

Whether the railroads will appeal from the decision of the railroad commission of Wisconsin ordering a union depot created at Second and State streets will probably be determined within the next thirty days, in the opinion of city officials. While there is no one here with authority to speak for the railroads the opinion prevails in official circles that the union depot is not needed and that the carriers may ask for a review of this case in court. On the other hand it is pointed out by many citizens that the site selected for the union station is the cheapest obtainable for the railroads and that if adequate service to the La Crosse traveling public is to be given, acceptance of the mandate of the railroad commission would be preferable.

Among all classes of citizens expressions favorable to the site selected by the railroad commission and the plan outlined for the operation of trains in and out of the station, were heard today. The opinion prevails in railroad circles that if the union station is created at Second and State streets the Milwaukee and Burlington north stations will be retained, people residing in that section of the city being accommodated as at present.

STATES OF MIDWEST
MAKING DRIVE ON
POISONOUS LIQUORPropose Murder or Manslaughter
Penalty for Persons Selling
Deadly Intoxicants

CHICAGO, Ill.—By the Associated Press.—Five midwestern state legislatures have passed or are considering bills to punish sellers of intoxicants that cause death. The penalty imposed is either a murder or a manslaughter sentence, and in some cases applies equally even to liquor given away.

The drive against poisonous liquor is the common denominator of all the legislation proposed to strengthen prohibition laws in more than a dozen midwestern states, which this week are mostly entering the important legislative sessions. Michigan has pending a bill making the sale of liquor that causes death, manslaughter, while in Indiana a bill making the penalty murder for selling or giving away fatal liquor was indefinitely postponed. Other legislation embraces a variety of proposed enforcement laws with few instances of wet activity. In Wisconsin wets have announced that they propose to try to make it illegal to search for liquor except on absolute knowledge of manufacture for sale.

Minnesota has pending a joint resolution to ask congress not to modify the Volstead law.

REHABILITATION OF
INDUSTRY RUSSIA'S
NEED SAYS HASKELL

MOSCOW.—By The Associated Press.—Russia needs money or credit to rehabilitate her industries, not more famine aid, Colonel William H. Haskell, director of the American Relief administration, has informed Secretary Hoover. Before dispatching the message, Colonel Haskell conferred with Leo Kamenoff, the third vice president, who is said to have concurred in all the details.

VINDICATION OF BOB
DEMANDED BY HUBER
IN SENATE ADDRESS

Offers Resolution Attacking Action
of University Men in
Signing Round Robin

DECLARES NEVER WAS MAN SO
LIBELLED AS LA FOLLETTE

Reads Letter Asking Withdrawal
of Former Resolution

MADISON, Wis.—By the Associated Press.—The Wisconsin senate voted 17 to 12 Wednesday to condemn as "unworthy of men employed in Wisconsin's greatest educational institution" the action of 450 University of Wisconsin professors who signed a round robin during the war attacking the attitude of Senator Robert M. La Follette. A more made by Senator Henry Koethe, to put on record the proposal for two weeks was defeated, 18 to 13.

MADISON, Wis.—By The Associated Press.—The war record of United States Senator Robert M. La Follette was to come before the Wisconsin senate Wednesday this time to be extolled and praised where five years ago it was denounced as unbecoming a representative of the state.

Those 450 University of Wisconsin faculty members, who during the war signed a round robin denouncing the attitude of Wisconsin's senior senator, were the object of attack in the upper house of the legislature. They faced condemnation through adoption of the Huber resolution, which would charge them with acts "unworthy of men employed in Wisconsin's greatest educational institution," provided it can muster the needed votes.

The resolution considered is a substitute to that originally introduced by Senator Huber, adoption of which would have resulted in a ban on the University round robin. The senator withdrew this proposal on request of Senator La Follette. When his new resolution came before the senate, Senator Huber read into the record the letter of Senator La Follette requesting him to reconsider his original resolution. He then delivered an extended speech in support of Senator La Follette's war stand and demanded a vindication at the hands of the senate.

Reads La Follette Letter
Senator Huber first read into the record a letter from Senator La Follette urging him to withdraw his original resolution calling for a ban on the round robin. He then delivered an extended speech in support of Senator La Follette's war stand and demanded a vindication at the hands of the senate.

"I deeply appreciate the spirit which prompted you to introduce this resolution and the desire on your part to get me insofar as possible to be gotten to you to be an unfair and libelous attack upon me," Senator La Follette said.

"Time is the great sifter and winner of truth. The formal destruction of that document cannot change the fact of its existence. I stated many times from the public platform in Wisconsin during the recent campaign that I would not exchange my record on the war with and man in the United States senate. History alone can judge impartially. So far as I am personally concerned I am well content that this document shall remain as a physical evidence of the hysteria attendant upon the war."

"It seems to me," he continued, "that our energies should be devoted toward bringing our institutions back to the principles upon which they were founded, and which are the true source of our greatness. This applies with special significance to the university and we can perform no greater service toward all our institutions than to see to it that the great university of Wisconsin ever continues that winnowing and sifting by which alone the truth can be found and made a reality and not a fiction."

Charges Misrepresentation
Turning from the letter of Senator La Follette, Senator Huber declared that "in the face of his record, La Follette has been slandered and libeled as no other man of his time; his actions have been misrepresented; the truth has been suppressed; words put into his mouth he never uttered; he has been accused of being disloyal, pro-German, guilty of treason, promoting sedition and accepting retainers from the enemy."

"The fact is he has been true to his people; true to his government, and has been the most able exponent of the wishes of the common man, either in or out of congress."

"The fact is that he has faced ruin of his reputation; accepted disgrace, approbrium, hatred and scorn, sacrificed money and friends to be true to his constituency and his convictions. 'Why is it, I ask you, that the common people, wherever you go, speak well of La Follette?' Senator (Continued on page six)

SENATE TURNS
DOWN HIRSCH
BILL, 26 TO 4

Big Majority Piled up Against
Measure Proposing to Abolish
Badger Guard Organization

LEGAL DIFFICULTIES BAR NEW
BILL PROPOSED BY SEVERSON

Sought Means of Divorcing Wisconsin
Guard from Federal Government

MADISON, Wis.—By the Associated Press.—Overwhelming defeat greeted the Hirsch bill providing for abolition of the Wisconsin National Guard, when it reached the floor of the senate Wednesday. By a vote of 26 to 4, the upper house determined to indefinitely postpone the measure. Three socialist members and Senator John Cashman, Democrat, republican, voted against indefinite postponement. A like fate, it is expected, will meet the Polakowski bill, passed by the assembly, when that measure comes to a vote at a meeting of the senate Wednesday night.

Severson Drops New Bill
Senator H. J. Severson, who planned a substitute amendment to the Polakowski bill divorcing the Wisconsin Guard from the national government, announced today that constitutional difficulties would make this proposed separation impossible. As a result, attention of the republican members of the senate will be directed toward bringing a reduction in the appropriation, so far as possible.

The National Guard issue came before the senate first in the subsequent amendment offered by Senator J. J. Hirsch, socialist, to his bill. This would have cut off the continuing appropriation for the state's military organization and would have resulted in practical abolition. The senate voted it down, 24 to 5. This brought the original bill before the upper house. Senator Timothy Burke, Green Bay, opposed the bill, claiming that it was an illegal attempt to violate the federal national defense act and the constitution of the United States.

Senator Quick, socialist, Milwaukee, replied that the national defense act was unconstitutional. He declared that the spirit and intent of the federal constitution had been violated by congress when it enacted a law that practically compelled the states to comply with its provisions regarding maintenance of a military establishment.

The Guard Defends Guard
The National Guard as a peacetime institution, and as a practical military force in time of war, was defended by Senator A. E. Garey, Edgerton, a former service man. He urged its continuance as an antidote to militaristic moves that might be made to increase the standing army of the country. The guard he declared to have proved its worth in the last war.

This stand met with the approval of the upper house, which voted overwhelmingly to kill the bill and retain the guard.

The roll stood:
For indefinite postponement—Barber, Benfey, Birkien, Burke, Clark, Czerwinski, Garey, Gotschman, Heck, Huber, Johnson, Kemp, Kuckuk, Lange, Morris, Ridgway, Roethe, Schumann, Severson, Skogmo, Smith, Staudenmayer, Teasdale, Titus, Wergden, White.

Against indefinite postponement—Cashman, Hirsch, Polakowski, Quick.

SANITY HEARING FOR
HUNGER STRICKER IS
ORDERED BY SHERIFF

MARINETTE, Wis.—John Birta, town of Stephenson, farmer, who has been on a hunger strike at the Marinette county jail here for the past ten days, will be given a sanity hearing if he does not eat in a few days, according to Sheriff Oscar Dahl. All efforts to feed the prisoner have been of no avail since February 25 last, when he was jailed because of his queer conduct, which Sheriff Dahl attributed to moonshine.

Sheriff Dahl raided Birta's farm home and arrested Mrs. Birta, the prisoner's wife, and Mrs. Ada Poloy, on a charge of violating the prohibition laws. They will be given a hearing soon.

SCHWAB RETURNS HOME
PARIS.—By the Associated Press.—Charles M. Schwab has been compelled by the state of his health to abandon his trip to the Ruhr and occupied Germany and will sail for home on the steamship Aquitania from Cherbourg Saturday.

GERMANY TO FIGHT ON—CUNO
DEPUTIES RAIDING STILL
IN SWAMPS OF LOUISIANA
ARE VICTIMS OF VIOLENCE

NEW ORLEANS, La.—The bodies of Wesley Crain and Wiley Pierce, deputy sheriffs, missing since last Friday when they left Franklinton to make a raid on a moonshine still in the swamps between that place and Bogalusa, have been located according to a telephone message from Franklinton to the Times-Picayune, shortly before four o'clock Wednesday morning.

The message also stated that one of the several men held in jail at Franklinton as suspects in connection with the disappearance of the officers is alleged to have made a confession to Sheriff J. E. Bateman of Washington parish.

The sheriff, accompanied by the man said to have confessed and others, left Franklinton Wednesday morning for the scene where the bodies are reported to have been found.

WET FORCES WIN
FIRST TEST VOTE
ON PROHIBITION

Assembly Approves Resolution
Asking Congress to Define
Intoxicants

VOLSTEAD ACT ARBITRARY SAYS
PETERSON IN DEFENSE OF PLEA

Would Make Alcoholic Content
Compatible With Amendment

MADISON, Wis.—By The Associated Press.—The first test vote on the wet and dry issue before the lower house of the Wisconsin legislature resulted in a victory for the wets Wednesday when the assembly voted, 57 to 34, to adopt a resolution memorializing congress to define intoxicating beverages.

The resolution, introduced by Assemblyman E. J. Peterson, Milwaukee, declared the Volstead act arbitrary and without basis of fact, defines intoxicating liquor as containing more than one-half of one per cent of alcohol. It asks congress to amend the Volstead act to permit the sale of beverages in excess of one-half of one per cent to a maximum point of alcoholic content compatible with the meaning and intent of the eighteenth amendment.

The Roll Call
Those in favor of the adoption of the resolution—Allen, Barker, Becker, Bevendoff, Busse, Conroy, Dunbar, Eber, Ellenhoecker, Elmer, Engel, Friedrich, Ganser, Gauer, Gahn, Hillman, Hinkley, Holley, Jung, Kamke, Klesner, Kilian, Koch, Koenigs, Lafer, Lindahl, Mark, Moggers, Miller, A. M. Miller, W. F. Minier, Moul, Nauman, Nein, Oliver, Olson, Ott, Peterson, Perry, F. J. Peterson, Polakowski, Prescott, Rahr, Ruffing, Schenken, George Schmidt, G. W. Schmidt, Schrimpf, Stoeffel, Timmerman, Tucker, Warden, Weber, Welch, Woller, Zimmer, Zittlow.

Those voting against adoption of the resolution—Anderson, Blomberg, Caldwell, Cushman, Dettlinger, Dopp, Prechoff, Goodman, Grandine, Grimstad, Halverson, C. E. Hanson, Hutchison, A. C. Johnson, E. H. Johnson, Jones, Kamper, Lawson, Lohr, Matheson, J. D. Miller, W. G. Nelson, Peil, Price, Royce, Saugen, Scherer, Shuck, A. E. Smith, Sumpster, Tuffley, Vincent, Whelan, Speaker, Dahl, Albert, et al., voting—Dieringer, Eischeide, J. C. Hanson, Hefty, Moser, George Nelson, Salter, F. C. Smith, Spear.

FRENCH GOVERNMENT
URGES RATIFICATION
OF DISARM TREATIES

PARIS.—By The Associated Press.—The French government will ask the chamber of deputies to vote ratification of the treaties signed at the Washington armaments conference, Minister of Marine Raiberti told the chamber Wednesday morning, when Vice Admiral Guerpente asked the status of the Washington pacts.

BRING BACK BODY OF
BADGER KILLED IN EAST

NEW YORK.—The body of Lester Rice of Waukesha, Wis., a near east relief worker killed by Turkish bandits near Aleppo, was brought back on the steamship Brega Tuesday.

MINERS GET RAISE

HOUGHTON, Mich.—A general wage increase effective as of March 1, was announced Wednesday by the Calumet & Hecla Copper company and subsidiaries, the Copper Range, Quincy, Mohawk and Wolverine. The rate of increase ranges from 15 to 20 per cent. Miners will receive from \$4.15 to \$4.25 on company account per day and up to \$4.50, and on contract underground labor \$3.75 to \$3.80. The wage scales will vary but little in the various mines.

TALK OF DICKER
USELESS CLAIM
OF CHANCELLOR

Declares no Overtures Will be
Made by Berlin While Situation Remains as at Present

FRANCE HAS GAINED NOTHING
MINISTER TELLS REICHSTAG

Government Will Continue its Policy of Passive Resistance

BERLIN.—By The Associated Press.—A coup d'état, planned to occur about the middle of the present month has been nipped in the bud by the arrest of fifteen persons at Munich, according to the authorities.

The ring-leaders are said to have been Professor Fuch, a well-known dramatic critic; Herr Machaus, a musical conductor, and Dr. Kuehles, formerly legal adviser to the Munich town council.

Dr. Kuehles, who was temporarily released for lack of evidence, shot himself.

BERLIN.—By The Associated Press.—Chancellor Cuno's declaration that Germany will hold out in the Ruhr, and his intimation that no overtures will be made "so long as the occupation . . . renders it impossible for us to estimate our own capacity," rang through the nation Wednesday as the people appraised their spokesman's address to the reichstag.

Asserting that France had obtained nothing in all the weeks of the occupation, Herr Cuno scoffed at talk of negotiations so long as the situation remained as it is.

Won't Give Up Territory
"We will agree to no settlement severing illegally acquired territory from Germany," he said, "no agreement which fails to restore to freedom Germans wrongfully punished. I do not appeal even now to foreign countries. I merely note that after seven weeks of fighting for our rights and for the peace of the world, we still stand alone."

Recounting in detail the coercive steps taken in the Ruhr by the allies, the chancellor declared that "however long the occupation may continue the course of barrenness will pursue the French."

"We will not cease our policy of passive resistance until the goal is attained," he said.

No Chance of Settlement

The chancellor recalled that he had assumed office with the intention of fixing Germany's reparations obligations at a tolerable figure. The proposals drafted, he said, were not even examined in Paris and the result was that the occupation of the Ruhr was already decided upon. There was no agreement, he asserted, because France did not desire one.

He declared that the peace treaty of Versailles had been trodden under foot by France without objections by any of the other nations signatory to the pact, although the French action was as much directed at the treaty as at Germany.

TEN MILLION DOLLAR CITY OF CHILDHOOD PLANNED BY YEOMEN

Complete Village of 125 Cottages and Places of Business to be Built Near Milwaukee

MILWAUKEE, Wis.—The \$10,000,000 "City of Childhood" which will be built by the Brotherhood of American Yeomen and for which sites are being inspected near Milwaukee, will be a village of 125 cottages on a tract of gently rolling land. School buildings, shops, chapel, library, bank, museum, garage, parks, and playgrounds with winding roads, are included in the plans of the town.

The grounds will cover 2,500 acres, according to Mark T. McKee, the local member of the Yeomen community in charge of the project. It will be the largest home of its kind in America.

"This home is not to be an institution," said Mr. McKee, "with children cared for come or not, rather a group of homes in which children could grow up in a normal family life, with the love and care of carefully chosen foster parents, fitted both by training and natural ability."

Not more than 12 to 15 children will live in each cottage, according to Mr. McKee, and the family life will not be unlike that of an old-fashioned family of that day.

That the physical welfare of the children will be considered of primary importance, and that nothing will be left undone which can contribute to their health and vigor, is the aim of the founders of the home.

Every pupil will be given the equivalent of a high school training. School work will be adapted to meet the requirements and capacities of the individual child, and special classes will provide opportunities for a variety of vocational studies.

GAREY WITHDRAWS BILL
MADISON, Wis.—Senator A. F. Garey, legislation was permitted by the senate Tuesday to withdraw his bill providing for creation of a new state board of education and holding the duties of the superintendent of public instruction and the executive board to be proposed.

During a speech in construction of the bill to take the bill from the committee on education and public welfare for consideration, he said: "The measure was scheduled for hearing tomorrow."

In 1913 there were 28,474 miles of railway in Canada with a total mileage of 100,000 miles.

HIGHWAY BILLS DRAFTED TO RAISE ELEVEN MILLION FROM BADGER AUTOMOBILE OWNERS

MADISON, Wis.—The joint highway committee of the legislature is now preparing to raise \$11,000,000 from the owners of automobiles in Wisconsin to provide for construction and maintenance of highways in the state. This is \$1,000,000 more than the legislative committee of the county board association planned to raise by their comprehensive taxing program.

The gasoline tax to be recommended by the committee is in addition to the graduated license fee based on weight. The weight tax will raise \$8,000,000 annually while the gasoline tax is estimated to raise from \$2,500,000 to \$3,000,000.

It is proposed by the committee that the \$8,000,000 shall be used to construct and maintain a 10,000 mile trunk highway system while the \$3,000,000 from the gasoline tax would go to town and county roads, distributed on the basis of mileage.

The highway committee intends to propose an amendment to the weight tax law providing that automobiles more than five years old would pay a fee 25 per cent under that paid by other machines. This amendment is understood to have been suggested by Governor Blaine.

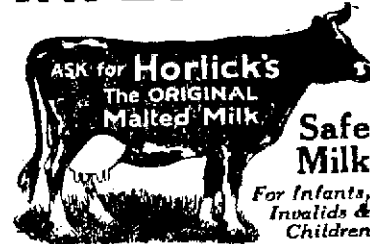

Improvements are expected when the highway tax measures reach the floor. They will be the center of one of the most bitter fights of the session.

Arrangements are being made to exempt from tax the gas used by the farmers on their farms. Receipts will be given to the purchaser of gasoline and if the gas is used for farm purposes, a refund of two cents a gallon will be made through the state treasurer's department. Collection of the two-cent gasoline tax will be under the supervision of the state treasurer's department. The refund will be made upon authorization of town boards, sent to the secretary of state. All gasoline sent into the state will be subject to a tax from the whole salesmen who will make their remittance direct to the state treasurer through the oil department.

With the development of the gasoline tax, it is believed that there will be a slight reduction in the license fee required on automobiles and there is a movement to reduce the license on smaller cars to \$7.50 instead of \$10 but to graduate the license fee up to \$40 for the higher priced cars now operated in the state.

SAVE ICE BOUND BOAT
HALIFAX, N. S.—The French steamer Pro-Patria, which with four Americans aboard, was held helpless in the ice, south of St. Pierre for ten days, has been rescued by the Canadian ice breaker Stanley, and is being towed into St. Pierre, according to wireless reports.

ONALASKA Canned Food Products

Your grocer will help you make your own assortment of canned foods this week and will price it attractively.

Save Money--Buy A Case

You have your choice of the finest vegetables from Wisconsin to molasses from Louisiana, fruit from California to fish from Massachusetts. The very best each State produces is packed in tin.

March 3-10 is CANNED FOODS WEEK.

The Consumer's Opportunity

OPENING A CAN THE PROPER WAY

Did you ever try to open a can of food? Did you punch a hole in the top of the can, and wiggle the can opener around, leaving a jagged edge like a buzzsaw? Did you cut your hand and lose your temper over the poor inoffensive can?

If so, you will be interested to know, once and for all, that there is no need for all this extra effort and annoyance.

Just remove the label from the side of the can, until you can see the seam, which was made in forming the body of the can.

Lay the can on its side and puncture the can next to the seam with the point of the can opener, and next to the top of the can. Then set the can in an upright position, insert the can opener in the hole already made on the "side" of the can—working away from the seam until you have cut around the can.

You will then be able to turn back the entire top (or bottom). If the can be held firmly, any ordinary can opener will answer. By this method, there is no risk in cutting the hand, and you will have a smooth edge, over which the entire contents will pass without being cut or broken.

STORE CANNED FOODS IN A DRY PLACE

Canned foods should be stored in a dry place. If they should become damp the cans will rust and in time the rust will eat through the tin. In this way, air will be admitted and the contents will spoil, for tinned foods will keep indefinitely so long as they remain hermetically sealed.

They keep simply because they are sterilized by heat in the cooking process. The germs of fermentation and decay are thus destroyed. But if the seal is broken in any way the air carrying all such germs is admitted and the contents will spoil in a short time just as any other cooked food.

ONALASKA PICKLES

In making up your assortment this week don't forget that pickles have a real food value and are a natural appetizer.

Onalaska Pickles are always well cured, properly spiced and essential to a well balanced ration.

"Peerless" or "OpaccO" brands assure your getting the very best that 20 years' experience can produce.

NATIVE SHRUBS HARDEST, BEST SAYS SPEAKER

Mrs. F. J. Bunting Pleads Cause
of Juneberry and Witch
Hazel Before Club

A plea for the Juneberry, the Witch Hazel, the Burning Bush and other native shrubs was made by Mrs. F. J. Bunting yesterday afternoon at the Twentieth Century club's meeting at the Y. W. C. A.

"These shrubs," said Mrs. Bunting, "are harder than the imported ones we use for hedges, and they are just as attractive. In the heavy snow storms, the weaker imported shrubs are weighed down and broken, but our native shrubs, High Bush Cranberry, Button Ball, Shadblow or Juneberry and Wild Rose are valiantly standing up in the face of them."

"These staunch little shrubs are being destroyed in lands where the timber is being cut, and in lands going to waste. We should conserve them in the woods as well as use them for beautifying our yards. What could be prettier than the Juneberry, the first shrub to blossom in the spring and the last to drop its leaves, or the Witch Hazel, the last to blossom in the fall?"

Discuss Pasture

The meeting was mainly given over to the discussion of Dr. Louis Pasteur, whose one-hundredth anniversary is being celebrated this year. Mrs. Charles Hickisch gave a splendid paper on Pasture's life, and Mrs. Dean Smith treated his work in scientific research, a subject which she was admirably fitted to discuss, being herself a physician.

Pasteur is a household word, and, because of his long life, he is mentioned in giving the history of knowledge of the history of human progress. A knowledge of the chief principles that affect the bodies of man and animals, and a knowledge of the measures by which the body may be protected against these diseases and the person neutralized, as by anti-toxins. Most people know him as the founder of bacteriology and the father of preventive medicine.

Mrs. H. J. Bullock conducted the session in parliamentary law, explaining the ten classifications of motions. Mrs. J. A. Rowles and Mrs. J. E. Nichols were elected to membership in the club. At the social hour which followed the meeting, the Mesdames H. C. Miner, W. D. Har and E. J. Warden were the hostesses.

Tribute to Mrs. Ingham

The following resolution was adopted by the club:

"Whereas, it has pleased an All-wise Providence to remove from our midst Mrs. Lulu Ingham (Mrs. A. V. Ingham);

Whereas, in the death of Mrs. Ingham the Twentieth Century club has lost an active and efficient member, one who has devoted to the purposes and interests of the club, therefore, be it resolved, that the members of this club herein express their sincere sympathy in the death of Mrs. Ingham; that they extend their sympathy to her husband and family, to whom she was a devoted wife and mother, and

Resolved, that the secretary be instructed to inscribe these resolutions in the records, and that a copy be sent to the family and to the daily paper."

GONA COFFEE—the family's choice.

RIBBON SANDWICHES

BY BERTHA E. SHAPLEIGH
(Of Columbia University.)

Repeat crust from a loaf of white bread. Cut into slices an eighth of an inch thick.

Work half a cup of butter with a spoon until creamy. Color it green, using spinach juice or color paste, and mix with one-fourth cup of grated bread-crumbs. Season with salt, and spread the bread with this mixture, spreading one slice upon another until the sandwich consists of ten layers.

Press firmly together, and put in a cold place until time to serve; then cut these piles into slices one fourth inch thick.

If it is necessary to keep the sandwiches for some time wrap in a napkin wrung out of hot water, or in wax paper.

Ribbon sandwiches can be made very attractive by placing various red, green and yellow fillings between the slices of bread. Repeat this twice, chopped plums with cheese, green peppers, ham and hard-boiled eggs make good fillings, combined with butter or mayonnaise.

It appeals to people of refined taste—Blue Devil Cleanser.—Adv.

ENTREPRISES IN MILLINERY

A hat of black felt is returned with an ostrich feather that clings tenaciously to the walls. Another of ladies' straw has lavender, lavender blossoms that are equally lengthy.

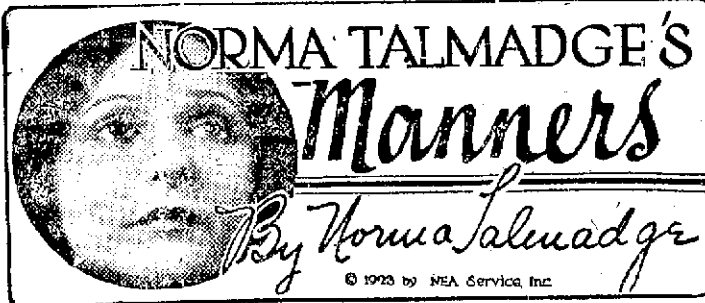

The Aftermath of Influenza

or any prostrating illness is always a time of great danger. Care should be taken to keep the body well nourished, and nothing is quite so resultful as

SCOTT'S EMULSION

You do not have to take a great deal of it at one time, but like all foods it should be taken regularly to yield the utmost benefit. You may take Scott's Emulsion with an assurance that every drop will yield its fruit in renewed strength. Try it!

Scott & Bowne, Bloomfield, N. J.

**NORMA TALMADGE'S
Manners**
By Norma Talmadge

© 1923 by MSA Service Inc.

Social graces are absolutely essential to social success. Gentility must be both graceful and gracious. Nowhere is gentility out to a more severe test than in the ballroom. It's true that dancers are born and not made, yet with patient practice and intelligent instruction, any able-bodied person can become an acceptable dancer, and should.

AT THE DANCE

1. A man asks the first dance of the woman he has escorted, and makes sure that she does not lack partners for later dances.

2. The woman does not seek her partner for any dance number; he comes to her.

3. Any couple who dance together so much as to make themselves conspicuous court criticism.

4. No man should ask a woman to dance with him unless he is sufficient to her.

"Physical freedom, modern dress, dancing, lack of chaperons, the general letting down of conventions and standards."

"But what grown people won't understand is that, while the junior of today haven't their parents' standards, they have their own."

Their Own Standards

"The up-to-date young man demands from a girl different qualifications from those his father sought, and women naturally are what men make them. The modern man would rather have a companion than a cook. He wants a girl to be sensible, but he wants some ornamental virtues, too. He comprehends a girl's desire to have some career besides home and children. He appreciates her need for intellectual companionship. He has learned that, if she has talent, she should not submerge it in marriage."

"If the golden age ever comes, it will be when every woman is economically independent, when common sense and honesty have supplanted the hypocrisy and ignorance that have raised the barriers which separate fathers and mothers from their children, making a 'problem' out of young people."

His bad manners for a man to leave a woman standing alone on the floor, either he escorts her to a seat or waits with her until her next partner claims her.

It is perfectly so that the dance will be a pleasure to her.

Men who accept invitations to a dance are duty-bound to participate in the dancing, instead of loitering in the smoking room.

ONCE 18 OR 20 WAS GROWN UP NOW IT IS 14

By MARIAN HALE
"A girl used to be considered grown up," says Rachel Crothers, writer, playwright and theatrical producer, at 18 or 20.

"Now she's mature at 14. Unless a mother realizes this, she begins then and there to widen the gap that grows naturally between age and youth."

Gone For Good

"The sensationally modern young woman who flashed before our vision during the war—the product of freedom, reaction and fatalism—has softened a trifle and will develop into a more normal, healthy personality. But we never shall have a return to the pre-war type."

When I asked her what she considers the most dangerous phase of our 1923 civilization, Miss Crothers answered:

"Physical freedom, modern dress, dancing, lack of chaperons, the general letting down of conventions and standards."

"But what grown people won't understand is that, while the junior of today haven't their parents' standards, they have their own."

Their Own Standards

"The up-to-date young man demands from a girl different qualifications from those his father sought, and women naturally are what men make them. The modern man would rather have a companion than a cook. He wants a girl to be sensible, but he wants some ornamental virtues, too. He comprehends a girl's desire to have some career besides home and children. He appreciates her need for intellectual companionship. He has learned that, if she has talent, she should not submerge it in marriage."

"If the golden age ever comes, it will be when every woman is economically independent, when common sense and honesty have supplanted the hypocrisy and ignorance that have raised the barriers which separate fathers and mothers from their children, making a 'problem' out of young people."

His bad manners for a man to leave a woman standing alone on the floor, either he escorts her to a seat or waits with her until her next partner claims her.

It is perfectly so that the dance will be a pleasure to her.

Society

MRS. GEORGE BERANEK was pleasantly surprised Saturday night in honor of her birthday. The evening was spent with cards, and a lunch was served at midnight. Mrs. Beranek was presented with a buffet set. The guests were the Messrs. and Mesdames Stanley Wojtecki, Joe Ender, Wm. Weigal, Ed. Sounts, Geo. Selke.

MRS. HENRY ALLEN of Onalaska

formerly of La Crosse, entertained on March 1 at an evening party in honor of Mr. Allen's birthday and their thirteenth wedding anniversary. The guests were Mr. and Mrs. Guy Root and their son and daughter, Mr. and Mrs. Covell and daughter, Mr. and Mrs. L. H. Lockman. Mrs. Allen gave a dinner party on Sunday evening in honor of her own birthday. A group of relatives and Mr. and Mrs. Howard Atkinson and daughter, Fern, were present.

THE EXECUTIVE committee of the Epworth League Union of La Crosse and vicinity is called for a special meeting, Sunday afternoon, March 11, 2:30 p. m. at the Calcedonia Street church. This meeting is for further discussion of the program for the April regular meeting.

THE LADIES' AID society of St. Paul's Norwegian Lutheran church, corner of West Avenue and Division streets, will meet Thursday afternoon at three o'clock.

CANADA ACTS ALONE IN CONCLUDING PACT WITH UNITED STATES

Signs as Free Nation Without
British Intervention for First
Time in History

TREATY IS RATIFIED BEFORE
ADJOURNMENT OF CONGRESS

Stand of Canada Leads to Opposi-
tion from London

OTTAWA, Ont.—For the first time in her history Canada has completed a treaty with a foreign nation without the intervention of the British government and without a representative of the London foreign office attaching his signature to the document.

The convention between the United States and the Dominion of Canada, one of the last documents to be placed before the congress, which came to an end on Saturday, bore the signature of Secretary of State Hughes for the American government and of Ernest Lapointe, minister of marine and fisheries of Canada, for the Dominion government. The fact marks a step forward in the progress of Canada toward free and independent nationhood and the step was not accomplished without a struggle with Downing street.

U. S. Emergency Call

Mr. Lapointe received an emergency message from Ottawa last week to proceed direct from an electioneering trip in western Ontario to Washington. Washington was anxious that the treaty which concerns the regulation of the fisheries on the Pacific coast be concluded in time for the ratification by the dining congress.

Two terms of the treaty were agreed upon two months ago, but the determination of Prime Minister King and his government that Canada should not alone in making treaties led to strong opposition from London and Ambassador Sir Auckland Geddes succeeded in having the completion of the treaty delayed.

Traditions Shattered

The firm stand taken by the King government has resulted in a break in the traditions of British dominions and marks a definite emergence from the state of servitude in which Canada, together with Australia, South Africa and New Zealand, hitherto have been held.

The facts of the case are only just becoming realized, although Premier King in an official statement issued from his Ottawa office announcing the completion of the treaty stated that it was significant that the Canadian minister was the sole signatory on behalf of the Dominion. The statement he issued this week in the house of commons and a debate on the subject is certain to bring forth some definite statement by the government announcing their reasons for the stand they have taken, and the end which they had in view.

WISCONSIN HERD SETS RECORD

BIRCHWOOD, Wis.—William H. Cockerill of Barron county has a farm near Rice Lake a herd of Jersey cows which has broken a Wisconsin record for herd production. The 16 producing cows averaged 40 pounds of butterfat each day for a 20 day period, and exceeded the 20 pound mark, one of the cows reaching 50 pounds and another 60 pounds.

CASHMAN'S SCHOOL BOOK LAW PASSED BY BADGER STATE

MADISON, Wis.—Without discussion the senate Tuesday passed the Cashman bill providing for the elimination of text-books defaming characters of the American revolution and war of 1812, from the public schools of the state. It now goes to the assembly, where passage is expected.

This measure provides that after a public hearing demanded by any five persons in the state, the superintendent of public instruction shall order discontinuance of the use of text-books shown to contain information disparaging the acts or characters of heroic characters in the revolution or War of 1812, or which contain propaganda favorable to any foreign government.

A number of books now in use in Wisconsin schools would be barred by operation of the bill, Senator Cashman claims.

INSURANCE MAN LEAVING CITY

Mr. Milford G. Fox, city manager for the Central Life, has left La Crosse for a larger field. He has been made general agent for the Central Life at Fond du Lac, Wis. Mr. Fox will be remembered as metal working instructor at the local high school before he went into the insurance field.

Mr. Martin Stenerson, general agent at La Crosse for the Central Life, will continue to look after the interests of policyholders in this territory.

VINDICATION OF BOB DEMANDED BY HUBER

Huber asked, "It is because," he continued, "during his forty years of public service, he has fought their fight, and has never betrayed them. This is significant of all the resolutions condemning him during the war, and one came from an organization of farmers; not one came from an organization of laborers. The faith of the workers has never been misplaced; it never will be misplaced."

"When history shall be truthfully written," the senator concluded, "Senator La Follette will be given credit for having been faithful to every trust; as one who has stood proudly by the right, in spite of libel and abuse."

Debate is Bitter

Two hours of debate and controversy over the attitude of Senator La Follette during America's participation in the world war, preceded the vote Senator Huber took on the Wisconsin senator's former secretary and author of the resolution defended the La Follette stand on the war while Senator George B. O'Brien, a former La Follette supporter, opposed the resolution.

At times the senate controversy became heated as questions affecting the loyalty of Senator La Follette were brought out in talks.

After wrangling back and forth Senator Bothe moved that the resolution be put over two weeks to permit him to write Senator La Follette to determine whether he wished the resolution passed.

Senator Huber objected and on a roll-call the move was defeated, 18 to 13.

The Vote

Then, on a roll-call the substitute amendment to the original bill, resolution of Senator La Follette was adopted, 17 to 12, and the resolution adopted as amended without a roll-call.

The adoption of the substitute amendment to the original bill:

For adoption—Baker, Bierman, Cushman, Gares, Hook, Hirsch, Huber, Johnson, Kemp, Kolakowski, Quick, Ridgway, Schumann, Seeger, Staudenmayer, Tensdale, Titus, Treadwell, Van Dine, Van Dine, Clark, Czerwinski, Kucknick, Lange, Morris, Roethlis, Skaggs, Smith, Weldon White.

Against adoption—Bentley, Burke, Cramer, Czerwinski, Kucknick, Lange, Morris, Roethlis, Skaggs, Smith, Weldon White.

The resolution now goes to the assembly where adoption is expected without serious opposition. When that is done the legislature will have condemned the university professors who opposed the La Follette stand in the war.

FORMER SECRETARY TO TAFT DIES IN GOTHAM

NEW YORK, Charles Dyer Norton, banker and former secretary to President Taft, died at his home here Tuesday.

Mr. Norton, who was in his 53rd year, died from complications which followed an attack of influenza. He was a native of Oshkosh, Wis. He was president of the First Securities company, a subsidiary of the First National bank, a vice president and director of the First National bank, and a member of many other financial institutions.

APPROVE BILL TO LABEL MATERIAL IN SHOES

MADISON, Wis.—The assembly Wednesday overturned a committee recommendation and sent the Holly bill to engrossment requiring the labeling of all shoes sold in the state with the material used in the manufacturing. The vote was 51 to 34.

The Holly bill giving the state all unclaimed bank deposits was passed, 51 to 7. Two measures by Assemblyman Price, intended to make child adoptions final, were killed.

GROWER GETS \$60 FOR 1,000 BUSHELS STUDS

HAYWARD, Wis.—Growers in Sawyer county were hard hit by the slump in potato prices the last few months and many have thousands of bushels on hand. George McLeod, Sand Lake farmer, recently sold 1,000 bushels of choice potatoes, which netted him only \$60.

TWO OPPOSE KIEWITIN MAYOR KIEWITIN, Minn.—Mayor A. C.

Kearns is to have at least two opponents for the office, in Jack Webb and Mike White. For the office of treasurer five candidates have filed, Mrs. Harry Schaffer, Dick Murphy, Russell Korn, Carl O'Rourke and James McDonald.

\$20,000,000 FILM TO BE SEEN HERE

"Story of An Automobile" Will Be
Shown at Chamber of Com-
merce Friday.

A cast of thousands of people, hundreds of machines almost human in the operations they perform, and a \$20,000,000 setting provide the background for the film, "The Story of an Automobile," to be exhibited Friday night at the Chamber of Commerce auditorium.

This film was produced under the direction of the United States Department of Commerce in co-operation with the Studebaker Corporation and will be shown in all parts of the world.

The scenes are laid in the new \$20,000,000 Studebaker plant at South Bend, Ind.

This romance of modern manufacturing shows an commonplace happening the wonders of motor car manufacture such as hydraulic pressure tossing a four ton hammer as though it were light as a feather, and this same hammer forging white hot bars of the toughest steels into automobile parts; molten metal flowing from a cupola spout like water from a faucet; a vast storeroom served by two traveling cranes which transfer materials from the loading docks to any floor in sixty seconds; a single machine which drills 68 holes in the engine block at one operation—this huge being held by metal straps so that it will fit in the machine in only one position—the correct one, which helps to explain the perfect interchangeability of Studebaker parts.

The story is a fascinating portrayal of the miracles of twentieth century manufacture. It will interest anyone who ever rode in an automobile.

After seeing it, you will appreciate why the representatives of fourteen nations asked that it be exhibited in their respective countries.

This city is fortunate to obtain this film which has been termed "the finest industrial film ever produced."

It is due to the energy and courtesy of Elsen and Phillips, local Studebaker dealers, that this film is to be exhibited free of charge at the Chamber of Commerce auditorium, Friday, March 9, at 8 p. m.—Advertisement.

GOPHER PIONEERS TO REST IN TWIN GRAVE

WARBA, Minn.—Mr. and Mrs. Obadiah Blakesley will be buried in a twin grave here Thursday. The couple, residents of this section for 13 years, died 28 hours apart. Mr. Blakesley, aged 62, succumbed to a lengthy illness Sunday afternoon and his wife died from stroke Tuesday morning. The couple came to the farm near Warba from Creston, Iowa. They are survived by six children.

HARRY K. THAW, REFRESHED, RETURNS TO INSANE WARD

PITTSBURGH.—Looking better than when he arrived here and showing a vim and snap that boded recovery, Harry Kendall Thaw, slayer of Stanford White, left here today to re-enter the Pennsylvania hospital for the insane. Thaw, through an order of the Philadelphia court received a ten days vacation in which to visit his aged mother, Mrs. William Thaw, and he has been staying at her home on Beechwood boulevard.

THREE GIRL SKATERS ARE DROWNED AS ICE BREAKS

LOANSFORD, Ind.—By The Associated Press.—Three small girls, Genevieve Wainwright, 7 years old, Ruth Wainwright, 8 years old, and Burdette Wainwright, 10 years old, were drowned in Lake Michigan here, when the ice on which they were skating broke.

The children were swept under the wheel of a car and no alarm was sent until too late to save them.

Up until late Saturday afternoon their bodies had not been found.

HAIG & HAIG TO QUIT, NO MARKET FOR GOOD BOOZE

LONDON.—Haig & Haig, Ltd., the boys who made the punch bottle famous, are going out of business.

It is understood that the famous distillers have started voluntary liquidation. The lack of demand for superlative whisky is said to be the reason.

Haig whisky, which has almost disappeared from the market, costs 13s a bottle, compared with 12s 6d for other brands.

SEE DEFENSE VICTORY IN HERRIN RULING

MARION, Ill.—By The Associated Press.—Attorneys for the defense in the second Herrerin trial claimed a victory Wednesday in a ruling by Judge D. T. Hartwell regarding testimony directed against Bert Grace, one of the defendants charged with the murder of Antonio Mulkenbach. It was said that the ruling practically eliminated Grace from the case.

RETIRED NAVY OFFICER DIES

WASHINGTON, D. C.—Rear Admiral Franklin C. Prindle, N. S. N., retired, died in the naval hospital here Tuesday from chronic poisoning, which physicians said was brought about by disabilities incurred during the civil war. He was 81. At the outbreak of the civil war Admiral Prindle entered the navy and participated in many engagements. He was retired in 1901.

KILLED BY CAVE-IN

WISCONSIN RAPIDS, Wis.—Instant death was the fate of Henry Pagel, town of Rudolph, when a 200 pound mass of frozen earth fell from the edge of a sandpit in which he was working, and struck him on the head, breaking his neck.

TURKISH EX-RULER SEEKS SANCTUARY IN CITY OF MECCA

JEDDAH, Kingdom of the Hedjaz.—By The Associated Press.—Former Sultan Mohammed VI. has been seen enough of the world's turmoil and desire to spend the rest of his days in quiet reflection in Mecca, where he was the guest of King Hussein, sovereign of the Hedjaz. The deposed head of the Turkish state recently told Charles R. Crane, the world never resume his position as head of the Mohammedan world unless there was a united call for him from the faithful. His most cherished hope, he said, was to find a final resting place in the sacred city of his fathers, where he has found refuge. The conversation was carried on over the telephone between Jeddah and Mecca, for no Christian is permitted to enter the Forbidden City.

STUDENT WALKS 30 MILES TO REACH STRICKEN FATHER

FAIRB, N. D.—Elmer D. Martin, a student at North Dakota Agricultural college, has returned to school from Minneapolis, where he was called by his father's illness during the illness of two weeks ago. When he found his father was dying, following the storm, Elmer walked thirty miles in below zero weather to reach his father. The father, Carl Martinson, is reported rallying from the attack of paralysis. Elmer said he made the trip with little trouble.

BOY FORTUNE HUNTERS TOOK BICYCLE, CHARGE

ELKHORN, Wis.—Childish dreams of seeking fortune in Texas which caused Frank Ankrayaski, 14, and Edward Sikora, 12, to leave Chicago and set out on foot, were interrupted when the youths were taken into custody at Lake Geneva. They are held by the sheriff for their parents, to whom they will be returned if Ringold, Ill., authorities do not interfere. The boys tried to walk and stole Postmaster Brown's bicycle at Ringold and took train riding. It is charged.

USELESS TO INTERVENE IN RUHR—BONAR LAW

LONDON.—During debate on the Ruhr question in the house of commons, Prime Minister Bonar Law maintained his previous position that intervention by Great Britain at the present moment would be useless.

GEESSE START NORTHWARD

NEENAH, Wis.—Wild geese have begun their northward migration, according to local sportsmen, who have observed large flocks heading their way over the city in the last few days. Old-timers refer to the geese migration as a sign of an early spring.

RIFT IN KAISER'S ROMANCE

DOORN, Holland.—Information that relations between former Emperor William and his wife Princess Hermine, are strained, was secured from a member of the one-time emperor's entourage.

CHURCH BURNS

BURLINGTON, Wis.—The Raymond Center Baptist church, near North Cape burned to the ground on Sunday.

OBITUARY

MRS. J. H. WILLIAMS

Walter Williams of this city received a message Saturday of the death of Mrs. J. H. Williams, a grandparent at Webster, S. D. deceased was 81 years of age. The burial took place at Webster Monday. Surviving are an aged husband, two daughters, Mrs. Maud Hyde, of Webster, Mrs. Elsie Decker, Aberdeen, S. D., nine grandchildren, three nieces, Mrs. J. M. Knox, Mrs. J. V. of La Crosse and Mrs. A. H. Larson, Le Roy, Minn. Mr. and Mrs. J. H. Williams and family were formerly residents of La Crosse.

MRS. AUGUSTA LUEDKE

Mrs. Augusta Luedke, aged 66 years, died Tuesday at 6 p. m. at her home, 811 South Third street of the infirmities of old age. Mrs. Luedke was familiarly known as "Grandma" Webb, she having made her home for a large number of years with her daughter, Mrs. Wm. Webb.

She was born in Bronbach, West Prussia, Pomerania, June 19, 1830, and came to America in 1848 and settled near Milwaukee, coming to La Crosse about a year later, she has resided here continually ever since, being one of the oldest settlers of La Crosse. She is the last survivor of seven families who organized the German Lutheran church in this city. She is survived by one daughter, Mrs. Wm. Webb, La Crosse, two sons, William Luedke, Mankato, Minn., Edward Luedke, Lumbert, Minn. The funeral services, from the home, will be private, and from the German Lutheran church at 2:30 Friday, Rev. J. T. Gamm will officiate. Interment will be made in Oak Grove cemetery.

ANDREW S. FRINK

Andrew S. Frink, aged 64 years, died Tuesday morning. Deceased was born in Vermont, Nov. 9, 1858, and was a resident of La Crosse for 19 years. He is survived by his wife, Mrs. Margaret Frink, one son Arthur H. Frink, Vancouver, Washington, also one brother J. B. Frink, Aberdeen, S. Dak., one sister, Mrs. G. D. Brown, St. Anna, Calif. He was a member of the A. O. U. W. No. 81 Minnehaw Lodge, Minneapolis, Minn., and the I. O. O. F.

THE FUNERAL OF MR. FRINK

The funeral of Mr. Frink will be held Saturday from the home 521 Ferry street at 2 p. m. and from the St. Paul's Universalist Church, Eighth and Cass streets, at 2:30. Rev. Nellie M. Opdahl officiating. Interment will be made in the Oak Grove cemetery.

OLD-TIME POLITICIAN DEAD

KEARNEY, N. J.—Major Joseph S. Oakley believed to have been the last survivor of the delegates to the national republican convention which nominated James C. Fremont for president in 1856, died.

U. S. ATTORNEY KILLED

PANAMA.—Albert Clare Hindman, United States district attorney in the canal zone, died from injuries in an automobile accident.

CHURCH BURNS

BURLINGTON, Wis.—The Raymond Center Baptist church, near North Cape burned to the ground on Sunday.

MILWAUKEE ROAD VICE PRESIDENT TALKS AT LUNCH

R. M. Calkins Addresses Chamber
of Commerce on Transporta-
tion Problems Wednesday

"BUSINESS GAUGE IS NUMBER
OF FREIGHT CARS," HE SAYS

Sees Hope of Better Conditions
in the Future

R. M. CALKINS, of Chicago, the vice-president of the Chicago, Milwaukee and St. Paul railroad, in a talk at the Chamber of Commerce Wednesday noon, told forcibly of the present situation which confronts the transportation interests of the country, explaining, as he went along, the reasons for the apparent lack of service afforded by the various railroad companies.

Quoting Kipling's statement that "Transportation is Civilization," Mr. Calkins compared conditions in this country with those in China, where the population is greater, and where the natural resources are no less than our own. He claims credit for the railroads in building up our country, especially in the west.

Need Co-operation

"We have a right, in the railway line," he said, "to claim great responsibilities in the building up of remote sections of the country. The railroads are the greatest institutions in the country, but they need co-operation with the manufacturers, farmers and all other business men. The condition of the roads last August was deplorable. The country was just emerging from the effects of the war. The railroads had been back in private hands so short a time that there had been no opportunity for rehabilitation and the worst strike in the history of the nation was upon them."

Insufficient Cars

I predicted a shortage of cars at that time, and though by now conditions, due to the purchase of new cars and engines, are much improved, the railroads cannot yet keep up with the volume of business which is being transacted. All forms of business are prospering and the railroad companies cannot provide the transportation facilities for moving it. Business is today gauged solely by the number of freight cars in the country.

"The reason for this," he continued, "is unjust and biased regulation of the railroads. Under the present laws the railroads cannot purchase new equipment from their earnings, but must provide new capital stock for such improvements."

Valuations Correct

Mr. Calkins stated that the valuation of the railroad property in the country was not over estimated, and that though the task of judging the valuation was not yet completed, he had no doubt that it would show the same as the government valuation, or less.

He further stated that at the present prices at which the U. S. & S. I. stocks and bonds are being bought in company with the railroads, the company, and La Crosse cannot have the new depot, which he said she needs. The speaker had hopes for a period of readjustment, however, saying that at the present time the earnings were averaging better than since 1891. He invited investigation of the affairs of his road.

Mr. Calkins closed his address with the expressed hope of better conditions year after year, emphasizing his statements that the Milwaukee road stands for progress and the building up of the country, as it has in the past.

CARD OF THANKS

We wish to thank the many friends and neighbors for the kindness and sympathy shown us during our late bereavement, the death of our beloved father, Andrew Calkins. Generously do we wish to thank Rev. E. O. Vik, the pallbearers and all who sent floral offerings.

THE CHILDREN.

BRITISH OFFICIAL DEFEATED

LONDON.—John Walker Hills, financial secretary of the treasury, a member of the Bonar Law government, was defeated for a seat in parliament in a bye-election.

LEAVES FIFTY MILLIONS

RIVERHEAD, N. Y.—William K. Vanderbilt, who died in France July 22, 1920, left a net estate of \$50,230,812.23, of which the state of New York will collect an inheritance tax of \$1,234,571, according to a decree entered in Surrogate court of Suffolk county.

WARRNS AGAINST HOSTILE

EKERN TO PROSECUTE ANTI-TRUST ACTIONS STARTED BY MORGAN

Asks Aid of District Attorneys
at Madison for Annual
Session

MADISON, Wis.—By The Associated Press.—The state is prepared to continue the anti-trust suits commenced by former Attorney General William J. Morgan and to continue to prosecute combinations in restraint of trade, Attorney General Herman J. Ekers told district attorneys gathered here Wednesday for their annual meeting. In this work he asked the assistance of the county legal officers.

"The big combinations to 'monopolize' markets and to 'make prices' are the biggest and most difficult problem," he said. "This is where the biggest job is unlawfully taken from the people. Price fixing and monopoly agreements are absolutely prohibited by the law."

"The proof in these cases is difficult but not impossible and the saying to the people that can be effected through breaking up these combinations and agreements justifies every effort. The district attorneys are right of the ground and the attorney general's office will use every means in its command to assist in this work."

Turning to a discussion of the Blue Sky Law, Attorney General Ekers said that the sale of fraudulent and worthless stocks and securities is costing the people of this state millions of dollars each year and this cost is often borne by those who can least afford it. Prompt action should be taken to apprehend any who attempt such sales without compliance with the Blue Sky law.

"Compliance with the Blue Sky law is to protect against prosecution for obtaining money under false pretenses. The violation of the law should be punished in every case but the result will be better if it can be apprehended and stopped before he gets the money of the people."

"There should be no tolerance of usury. If business cannot be transacted within the limits of interest permitted by the law, there is no justification for its being transacted at all. The plea that higher rates are required because of the risks taken is merely an excuse for gouging the unfortunate. It is the game of the big thief."

The Brazilian Indians eat large, round, white, and pink.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr.
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes, pimples—a bilious look in your face—fine eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

CLEANSE YOUR IMPURE BLOOD

THAT "knocked-down-and-dragged-out" feeling, the skin eruptions and muddy complexion and the sick spells that leave you so weak are all signs of impure blood.

As a blood medicine and spring tonic Gude's Pepto-Mangan has no equal. It will send a new supply of rich blood coursing through your veins, clear up your skin and give you a new feeling of physical power and vitality.

Your druggist has Gude's—in both liquid and tablet form.

BRINGING UP FATHER—

EIGHT-HOUR DAY MADE TO INCLUDE PRISON INMATES

MADISON, Wis.—The basic eight-hour day approved by the assembly was extended to include all prisoners sentenced to hard labor at jails and other penal institutions of the state by the lower house Tuesday.

The provision for the eight-hour day for prisoners came in the form of an amendment by Assemblyman Prescott, Milwaukee. The amendment to the labor law which allows prisoners to work carrying the prison amendment went to a third reading.

The labor and cancer bills allowing cities to go into the retail milk business and to also sell other food products through the establishment of municipal departments of markets went to engrossment. The Lindahl bill raising the penalty for the sale of adulterated milk was also engrossed.

PLAN JUNIOR HIGH SCHOOL

LADYSMITH, WIS.—A \$20,000 junior high school will be built here this year, according to present plans.

MILWAUKEE RANKS HIGH IN NATION AS A CONVENTION CITY

MILWAUKEE, Wis.—This city in 1923 will rank seventh among the cities of the country in the number of conventions entertained, while it ranks only thirteenth in population, according to statistics from the convention bureau of the local Association of Commerce.

The largest convention which will be held here during 1923 will be that of the Grand Army of the Republic and eight hundred organizations which it is expected will bring a minimum of 40,000 people to the city.

Other important gatherings to be held here are the American Bowling Congress, which will bring approximately 10,000 persons, the tenth district Rotary clubs, the Retail Credit Men's association, the United States Junior Chamber of the Chamber of Commerce, the National Roman Catholic Central society and the American Mining congress.

If a diver rises to the surface too quickly when he has been at a depth of several hundred feet his blood will flash like soda water.

FARM HOUSE BURNS SICK MAN CARRIED FROM THE BUILDING

The farm home of Nicholas Link four miles southeast of Calumet was burned Wednesday as a result of a fire which destroyed the building and its contents while the owners were attending special church services at Calumet.

Mr. Link's aged father, confined to his bed with an illness resulting from the influenza of age, was asleep in an upstairs room when neighbors discovered the fire and gave the alarm. He was assisted from the house before the flames reached him.

Dorothy, aged 13, a cripple, and two younger children, were also in the house when the fire started. The building, a four-room log structure, burned to the ground, while its contents, including furniture and personal effects valued at several hundred dollars, were also destroyed. No insurance was carried on the building. The furniture was insured for \$200. An excellent stove-pipe is believed to have caused the fire.

Neighbors, upon observing the flames, notified the children, who awakened their grandfather, aged 80.

STATE FIREMEN TO MEET

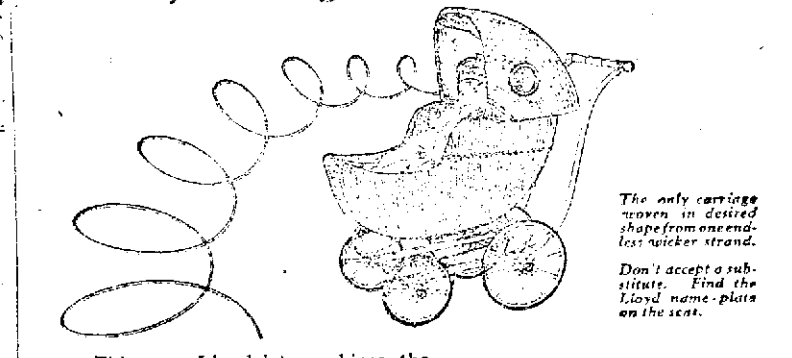

JEFFERSON, Wis.—Plans for the annual meeting of the Wisconsin State Firemen's association to be held here June 14, 15, 16, were made at a meeting of the executive committee. The city council has appropriated \$1,000. Business men have raised \$2,500 and a guarantee fund of \$750 has been raised through three

Enjoy This Now Combat that film on teeth Watch the new beauty come

Go ask for this free test.

The results will delight you. They will show you a way which millions have found to whiter, cleaner, safer teeth.

All in your home should know it. Show them at once what it does.

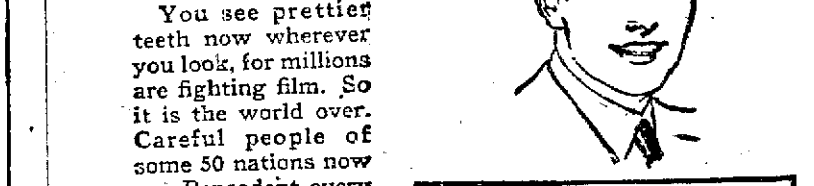

Why teeth grow dingy

You feel on your teeth a viscous film. It clings to teeth, enters crevices and stays. No ordinary tooth paste effectively combats it.

That film is the teeth's great enemy.

Prettier teeth seen everywhere

You see prettier teeth now wherever you look, for millions are fighting film. So it is the world over. Careful people of some 50 nations now use Pepsodent every day. This test will show you why. No one can see the Pepsodent results without wanting them continued.

Avoid Harmful Grit
Pepsodent curdles the film and removes it without harmful scouring. Its polishing agent is far softer than enamel. Never use a film combant which contains harsh grit.

It absorbs stains, then forms a dingy coat. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. That's why 49 in 50 suffer from tooth troubles. Germs breed by millions in film. They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Now you can combat it

Dental science has in late years found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

FREE

At Local Stores This Week
A 10-Day Tube. See Coupon

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research. These two film combatants were embodied in it for daily application. That tooth paste is called Pepsodent. Careful people the world over now use it, largely by dental advice.

A new dental era

Pepsodent also multiplies the alkalinity of the saliva. That is, there to neutralize mouth acids, the cause of tooth decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

Thus it gives manifold power to these great natural tooth-protecting agents. These combined results mean a new dental era.

You will be amazed

This test of Pepsodent brings a new conception of what clean teeth mean. Present the coupon for it. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

In a week you will know what is best for you and yours—the old ways or the new. That decision is important. Cut out the coupon now.

10-Day Tube Free

This week only at your store

Insert your name and address, then present this coupon this week to any store named below. You will be presented with a 10-Day Tube of Pepsodent.

If you live out of town, mail coupon to The Pepsodent Company, 1104 So. Wabash Avenue, Chicago, and tube will be sent by mail.

Present coupon to

EIGHT HIGH SCHOOL QUINTETS GET READY FOR BATTLE HERE

LOCAL DISTRICT CAGE TOURNAMENT OPENS THURSDAY

La Crosse High School on Card
With Kendall in Last
Game Thursday

GALESVILLE AND REEDSBURG DOPED TO PUT ON GOOD GAME

No Season Tickets to be Sold for
Tournament

Thursday's Games
Fountain City vs. Westby.....3:30
Galesville vs. Reedsburg.....4:30
Holmen vs. Mauston.....7:15
La Crosse vs. Kendall.....8:15

THURSDAY'S schedule of the La Crosse Normal sectional tournament indicates that some class basketball will be displayed on the first day.

Fountain City and Westby, first on the card, are two evenly matched teams according to their records and are doped to give the crowd a few thrills in the line of clever basketball. Between the two, Westby should be able to win. Probably the best game of the day will be when Reedsburg and Galesville clash. These two teams have been going strong all year and the fans will have the opportunity of watching one of the best games of the entire tournament.

In the evening the first game will be between Holmen and Mauston. This should be a fast game with odds in favor of Mauston. La Crosse high will take on Kendall in the last game of the day and should have little trouble in winning. La Crosse has a wonderful record this year, having won all their scheduled games. La Crosse is doped to win the tournament, but many a strong team has failed to reach the state meet because of a "fluke" defeat in the sectional tournament. If La Crosse comes through this tournament they will make a strong bid for state honors, playing the game they have been playing all season.

Athletic Director Nohr has announced that no season tickets will be sold this year as has been the custom in former years, but a regular admission price of 50 cents will be charged for each session of two games. This season game will be seen at the small price of 25 cents, and it will be decided whether the money.

CLEVELAND, Ohio.—Jack Dempsey, heavyweight boxing champion, has been offered a guarantee of \$100,000 or the privilege of 25 per cent of the gate receipts to meet Tommy Gibbons of St. Paul in a twelve round bout July 4 or Labor day.

The number of prisoners in confinement under sentence in 1910 was 13,472.

SEALS ARE HALTED IN ALL THREE BY CAMELS TUESDAY

The Seals were forced to bow three times to the Camels in the weekly bowling of the Elks' tournament Tuesday night. The Seals, by the way, are the league leaders.

It was perhaps the wonderful finish of the Camels in the first game, when every man struck out, that took the pep out of the Seals and caused them to lose every game. (All of the Seals).

The unanimous defeat sent the seals into second place, the Kangaroos winning two, going into first.

The Bear Cats cut down the lead of their next door neighbor, the Bulls, to one game, winning two from them.

The scores:

MICHIGAN STAR MAKES BIG SCORE AGAINST STATE

Wm. J. MILLER
Wm. J. Miller, the University of Michigan's star forward, who was placed on the official all-conference basketball selection last year, has annexed another honor.

In the Ohio State-Michigan game, played on the Michigan court on January 27, he made a total of 27 points, with 8 field goals and 11 free throws. This is the highest number of points that have been run up by one man in any western conference game in the past two years.

Miller is very instrumental in the success of the Wolverine five this year.

SPORT BRIEFS

NEW YORK.—Frankie Conero, recent winner of the American flyweight boxing title, defended the championship by knocking out Frankie Williams in the third round of a scheduled ten round bout.

NEW HAVEN, Conn.—Johnny Weissmuller of the U. S. A. C. broke by 14 seconds the world's record for the 400 yard swim in a 75-yard pool with a time of four minutes, fifty-seven seconds.

AMERICAN LEGION BOXING BOUTS

—AT THE—

YEOMEN HALL, March 16

Seat sale now on at the S. & H. Cigar Store.

LATE BASEBALL GOSSIP

CHICAGO, Ill.—A lineup with a 300 or better hitter in every position is one of the things other American league teams may have to contend with when they meet Detroit this season.

On the basis of 1922 averages, Manager Cobb will be able to put a team with a grand batting average of .329 on the field, with none of the players batting under the coveted .200 mark.

This hard-hitting lineup follows:
Blue, first base, .300; Haney, third base, .352; Cobb, centerfield, .401; Veach, left field, .327; Heilmann, right field, .354; Pratt, second base, .302; Rigney, shortstop, .300; Bassler, catcher, .323; Woodall, catcher, .344; Moore, pitcher, .308; Fothergill, outfielder, .322; Flagstead, outfielder, .308.

The Kansas City club of the American Association will move into a new and modern park July 1, when the \$300,000 steel and concrete structure will be completed.

The park will be situated not far from the old Association park where the Blues have played for years.

The grandstand will seat 13,000 persons. It will be of single deck construction, and will be patterned after the Chicago National league park. Besides Kansas City only one

other club in the American Association, Toledo, has a steel and concrete stand.

Manager Kid Gleason of the White Sox has ten promising pitchers in camp at Marlin, Texas, and says he is not worrying about the absence of Charley Robertson, who pitched a perfect no hit, no run game against Detroit last season. Robertson is at his home in Sherman, Texas, expecting the White Sox to meet his salary demands.

Frank Woodward, the big right-hand pitcher purchased by the White Sox from New Haven, is expected to prove the find of the season among the candidates for mound duty in the majors. He is not only a sensational pitcher, but is more than a fair hitter. He batted in fifty games last season and had an average of .227.

He scored twenty runs, and in making thirty hits, batted three doubles, three triples and three home runs. As a fielder he ranked first among the twirlers of the league, with a perfect mark of 1,000, having handled 115 chances without a slip in forty-two games. He was credited with winning twenty-three games and charged with twelve defeats, for a percentage of .657. He struck out 186 men and walked 108.

SOUTHERN DIVISION HIGH SCHOOL MEET STARTS THURSDAY

MILWAUKEE, Wis.—When the Waukesha and Randolph, Wis., high school basketball teams took honors in the Marquette university gymnasium here Thursday afternoon, the first state high school basketball tournament, (Southern division), ever sponsored by Marquette, will be swung into action.

Other games on the first day will find Slinger battling South Milwaukee; Kenosha playing West Bend and Racine meeting Wauwatosa. All have imposing records in their own territory.

An apparatus has been invented whereby waves can be broken at the mouth of the harbor, safeguarding the ships.

EIGHT TEAMS ARE ENTERED IN RIVER FALLS TOURNAMENT

RIVER FALLS, Wis.—Eight teams are entered in the St. Croix Valley high school basketball tournament which will be held here Wednesday, Thursday and Friday in the state normal school gymnasium.

In the first two games to be played Wednesday afternoon, Clayton meets St. Croix Falls and Cumberland plays Shell Lake. In the evening competition Elmerston meets River Falls and Hudson clashes with New Richmond. The final games will be run off Friday.

New Richmond won the tournament last year with River Falls high school runners-up.

JONES RECOMMENDS JACK RYAN AS HEAD COACH OF BADGERS

Regents Withholding Decision
in Matter Until Later
Wednesday

MADISON, Wis.—Jack Ryan, formerly of Marquette university, and Dartmouth college, was recommended for the position of head football coach at the University of Wisconsin during a joint meeting of the athletic council and a board of regents committee Tuesday night. T. E. Jones, athletic director, made the recommendation.

Although several regents considered the recommendation, they decided to withhold the board's approval until the regular meeting Wednesday.

Ryan was for a number of years coach at Marquette university and then in 1919 went to Dartmouth, where he served as assistant coach in charge of backfield men. He is reported to have ability to develop strong teams.

3 things

in a shave, you've
never had before

First—a super-velvet shave,
going over the face one
time. No scraping.
Second—a quick shave, 78
seconds from lather to
towel!
Third—a 78 second velvet
shave every day

78 Seconds

and a clean comfortable shave every time

A complete shave from lather to towel in 78 seconds! And each time a clean comfortable shave.

No after-shave smart. No scraping. No lotions needed now. Your shaving time is cut in half and you save your face, for dull edged blades ruin the skin.

It changes the whole shaving situation. And millions of men are already enjoying it daily.

We have at last processed a barber's edge on a safety razor blade. And we provide you a means of renewing the smoothness of the blade, if you care to. With a Valet AutoStrop

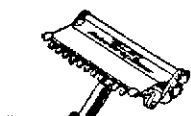

set, working as a part of the razor, is our famous strop.

In 10 seconds you can strop your blade if you wish—or just insert new blades as you feel the need.

Buy a Valet AutoStrop Razor at your dealers today.

You can obtain for \$1.00 a Valet AutoStrop razor set, which consists of razor, leather strop and three blades, in a metal case, velvet lined. Other sets—ideal for gifts—are priced up to \$25.

Whichever one you choose will do the work—the world's fastest shave. Make the test. It will amaze you.

JACK RYAN IS NAMED FOOTBALL COACH AT BADGER UNIVERSITY

FORMER MENTOR AT MARQUETTE "U" SUCCEEDS RICHARDS

Jack Ryan is Familiarly Known
in College Football
Circles

HAS BEEN ACTIVE IN GAME
FOR PERIOD OF TWENTY YEARS

Final Decision Made after
Lengthy Consideration

MADISON, Wis.—Upon recommendation of Thomas E. Jones and the athletic council, the regents of the University of Wisconsin Wednesday elected John J. Ryan, Darmouth, 1910, as head football coach, the appointment to take effect immediately.

The athletic council, after considering the applications of more than three score of candidates for the position, did not come to a definite decision in favor of Ryan until Tuesday night and made its report and recommendation to the regents at their regular meeting this morning.

Jack Ryan, as the new coach is familiarly known in college football circles, will immediately become a member of the staff of the Department of Physical Education and will devote his entire time to the development of a football team, taking personal charge of the spring training and keeping in touch with his men during the entire school year.

The new coach has been active in football as player, scout, official and coach for 20 years. In 1903-14 he played left half on the Waterbury, Conn., high school team. In 1906 he was captain on the New Hampshire State College team.

He entered Dartmouth in 1907 and being ineligible the first year played quarter on the scrubs. In 1908-10 he played quarter, right half and right end on the Varsity team, being captain in his senior year.

From 1911 to 1913 he was coach of all athletes at St. Thomas College, St. Paul, and did not lose a game in the three years at football. In 1914-15 he acted as scout and official in the conference. In 1916-17 he was at Marquette University as assistant coach and from 1917 to 1921 was head coach at Marquette.

His team did not lose a game in 1917 and defeated the famous Great Lakes team which was the only one to score. The season's record was 23-1-7, making his the highest winning team in the West. In 1919 he coached the first football game of his coaching career, and for strange coincidence this was to Wisconsin.

RE-ORGANIZATION OF NELSON BASEBALL CLUB IS VOTED ON TUESDAY

Five Hundred Fans Turn Out at Progressive
League Meeting to Launch Drive for
Second Ball Club Here

APPROXIMATELY 500 baseball fans from both ends of the city thronged Logan Junior high school Tuesday night at the regular meeting of the Progressive league, and by an enthusiastic vote of ayes, pledged support and voted for a re-organization of the Nelson baseball club for the season of 1923.

Along with re-organization of the club was injected the spirit of having the club represent the entire city of La Crosse, the tone of the various speakers on the floor from both North and South La Crosse, indicating that all factional traditions, heretofore apparent when two clubs have been present in the city, would be eliminated.

Big Bunn is There

Present at the meeting were baseball fans from both ends of the city, but perhaps no celebrity endured more hardship or traveled farther to attend the meeting than did Omer "Big Bunn" of Viola, recognized among ardent supporters of both clubs as the "Iron Man" of the national pastime in this city.

The big mound shooter traveled to La Crosse over roads that have been in much better condition than they are today in order to be present, and when called upon for a few remarks, Big Bunn arose and said he was glad to again be among his friends in La Crosse. Overcome by emotion, which prevented him from saying anything, he had intended to say, "I am grateful to you for having elected me to the position of president of the proposed new club, and I am sure that the enormous crowds which attended games played by either the Montague or Nelson clubs last year was no basis by which to judge the net income from each game played."

Outfield Averages \$40

The outfield collection according to last year's figures, averaged about \$10 per game, and the speaker explained that the enormous crowds which attended games played by either the Montague or Nelson clubs last year was no basis by which to judge the net income from each game played.

Must Raise \$2,500

It was pointed out by R. C. Davidson, virtually in charge of the meeting, by reason of his connection with the club last year, that re-organization would mean the raising of about \$2,500 at the outset, this task being voted to be in charge of the committee elected outside of the canvass, to be made among the wholesalers, retailers, professional men, etc., more or less appointed to personally take charge of the canvass among employers of such establishments as the La Crosse Rubber Mills, National Garage, the Burlington and Milwaukee shoes, the Burlington and Milwaukee shoes, the Burlington and Milwaukee shoes.

Davidson pointed out that in the past year the average attendance was approximately 800 fans, this figure comprising the net paid attendance in the grand stand. He enumerated figures of expense connected with each game compared to the gate receipts, with the final outcome that at the end of the season each player on the Nelson club supplied baseball to La Crosse fans for a remuneration of a meager \$5 per game.

COST HIM \$2500 LAST YEAR

Regarding the operation of the club last year, Montague stated that the club cost him close to \$2500 and he was expecting that maintenance of the club would increase 75 percent this year. He indicated that both McCauley and Franz had to be given raises in salaries in order to keep them this year, and to quote Mr. Montague, "Joe Collins is not working for nothing."

In the discussion on the proposed name of the club, Harry Robinson, attorney, contributed the opinion of Davidson that to call the club any other name than the "Nelsons" would be losing what the organization has gained in the way of advertising during its entire existence. He was of the opinion that the support of the club should be made a city wide affair, in keeping with the past policy of the club in being a public possession, supported by the public.

Not North Side

The original motion to make the club a representation of the north side was presented by John Mulder, who recalled that but recently at the meeting of the Progressive league the proposition was advanced to forget about the existence of a north and south side, rather designating the club as representing the entire city. This also, was the opinion of Warren Smith, who was early identified with the movement for re-organization of the Nelson club.

NEENAH TO BUILD SCHOOL

NEENAH, Wis.—Contract for plans for a new high school building, has been let by the school board to John P. Clubb, Chicago architect. It is planned to advertise for construction bids in the near future.

NATIONAL TOURNEY AT CHICAGO "U" TO EXCEED ALL RECORDS

Cage Tournament Last Year
Drew Twelve State Champions
in Sixteen States

CHICAGO, Ill.—The national interscholastic basketball tournament to be held under the auspices of the University of Chicago April 4, 5, 6 and 7, promises to exceed all records set by former ones. The tournament last year drew twelve state champions and a total of sixteen states were represented. Already word has been received from teams from twenty states seeking to enter the tournament.

The event will be limited to thirty-two teams, representing the best from all sections of the country. Practically all the state associations are working with the University of Chicago in making the event the one super-tournament. The teams are limited to those in good standing with the state associations and no outlaw teams will be allowed to enter.

GREEN BAY MAYOR SEES BIG "STEAL" IN DAHL BILL

GREEN BAY, Wis.—Every property owner and home owner in Green Bay would have his taxes increased under the proposed Dahl bill, according to Mayor Wiesner, who said the city was opposing the proposed measure through the league of municipalities. By the Dahl bill, Mayor Wiesner says, he estimates the state's "steal" from Green Bay would be about \$200,000.

NEENAH, Wis.—Hundreds of dollars damage has been caused by water flooding basements. Some cellars have three feet of water in them.

POSSIBILITY OF FIVE QUINTETS IN Y. M. C. A. TOURNEY

Four Surrounding Teams Already Entered in Amateur
Cage Meet Here

There is a possibility of one additional team entering the amateur basketball tournament being sponsored by the local Y. M. C. A. to pick a team from this district to compete in the state tournament at Beloit later this month.

Four teams, the Sports Spots, Reimans, Norwalk and Arcadia, are entered in the tournament to date, and T. B. Putney Wednesday announced that the First Methodists of the church league may enter.

It is planned to hold the tournament at the local "Y" gymnasium on the coming Saturday.

The sea-going force of the Australian navy in 1915, was 400 officers and 4,500 men.

The total value of all field crops in Canada in 1920, was \$1,445,000,000.

PROPOSE GASOLINE TAX TO AID COUNTY ROAD CONSTRUCTION

Two-cent Levy to be Divided Among Counties on Basis of Rural Highway Mileage

MADISON, Wis.—By The Associated Press.—Committee of Wisconsin would directly benefit from the two-cent gasoline tax proposed in a bill to be submitted to the joint highway committee of the legislature Wednesday night for approval. This measure is to come into the legislature to supplement the proposed graduated license fee based upon weight.

The bill provides a direct tax of 2 cents a gallon on all motor fuel sold in the state in interstate commerce after June 30, 1927. The first dealer who sells this motor fuel is liable for the payment of the tax unless already paid, under the bill which provides for registration of all persons handling gasoline.

The funds raised by the tax, estimated at \$2,500,000 annually, would be distributed to the county treasurers of the several counties in the proportion that the mileage of rural highways, not a part of the state trunk highway system, in each county bears to the total mileage of rural highways not a part of the state trunk highway system in all the counties.

VOTE FUNDS FOR ROADS

MADISON, Wis.—The senate voted unanimously Tuesday to appropriate \$1,500,000 to the highway commission to meet federal aid fund provided for construction of Wisconsin roads. This money comes from money placed in the highway fund accumulated from automobile license fees during the past two years.

By making this fund available the state will be in a position to go ahead immediately with federal aid highway construction.

Don't Let That Cold Turn Into "Flu"

Rub on Good Old Musteroil.

That cold may turn into "Flu," Grippe or even worse, Pneumonia, unless you take care of it at once. Rub good old Musteroil on the congested parts and see how quickly it brings relief.

Colds are merely congestion. Musteroil, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

As effective as the magic old mustard plaster, it does the work without the plaster.

Just rub it on with your fingertips. You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief. Use and G.O. in jars and tubes.

Better than a mustard plaster.

RED PEPPER HEAT STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore, lame back. It can not hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quick relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

"JAZZMANIA" VOTED MAE MURRAY'S BEST

MAE MURRAY has done the best work of her photoplay career in her latest Metro picture, "Jazzmania," presented today at the Casino Theatre. The amazing versatility of this gifted screen star was never more fully evidenced than in this film, and it is by all odds the most popular and entertaining of her pictures.

"Jazzmania" has everything in it. As a matter of fact, it is more than one photoplay. It has its background, for the most part, in the colorful kingdom of Jazzmania, a tiny Balkan principality. It shifts to Paris for a while; then to the Casino at Monte Carlo; and finally to New York. Spectacular scenes follow each other with incredible swiftness, and no sooner has one changed a scene of rare beauty than another is flashed on the screen in its stead.

The story is concerned with the romances of a young (teen)—Nina—whose kingdom is beset by enemies. She flees to avert a revolution, and her love of jazz and excitement leads her to Monte Carlo and New York. During her stay in the American metropolis she learns of the plight of the women and children of her own

country, and is persuaded to return to them. She arrives in time to prevent the betrayal of the kingdom. The people rejoice at her return, and she turns her tiny state into a happy jazz kingdom.

"JAVA HEAD"

Leatrice Joy who plays the role of a high caste Chinese woman in "Java Head," which will be the feature at the Rivoli Theatre today and until Saturday had a goodly share of responsibility imposed upon her during the screening of the picture.

There are no fewer than seventy distinct articles of jewelry and costume accessories of which Miss Joy must keep accurate account and make correct use. Among them are included large and small necklaces, jade grape pines, mottled stone ornaments, ivory hairpins, ivory and silver cane pipe, small brass nail-heads, jade and pearl earrings, double strand of green glass beads, moonstone ornaments and various other pretties.

"YELLOW MEN AND GOLD"

A rousing adventure melodrama is Gouverneur Morris' new photoplay, "Yellow Men and Gold," which comes

to the Majestic Theatre for three days beginning Thursday.

The action starts in Los Angeles and rapidly shifts to two ships which are headed for an island in the South Seas, where a Spanish galleon, laden with treasure, was sunk three hundred years ago.

There are some sharp encounters between the officers and crews of the two rival bands of treasure seekers, and two of the greatest single-handed conflicts ever shown upon the screen.

Helene Chadwick and Richard Dix, who have appeared together in several previous Hollywood pictures, are featured in the leading roles of this smashing tale.

MOB THREATENS DRIVER AS TWO ARE KILLED

CHICAGO, Ill.—The number of persons killed by automobiles in Chicago since January 1 was brought to an even 100 on Monday when a taxi driver ran down and killed a man and his wife as they stepped from behind a street car. The victims are unidentified. A crowd threatened to lynch Nelson Croff, driver of the automobile.

NEW SYSTEM OF HOG PROMOTION WORK OUTLINED

A new system of hog promotion work is now instituted in Vernon county and will shortly be submitted to the officials of the county fair association for their approval. The plan is one which not only promotes hog raising from the standpoint of pure bred hog raising but is one that will serve to maintain the maximum litter, and to produce maximum gains in the shortest possible time.

The details of the plan are submitted herewith:

Open to any hog owner in the county, regardless of the breed of hogs or whether pure bred, grade, or cross bred, if not sired by a pure bred boar. Litter must be nominated and marked within two weeks from date of farrowing.

Litter must reach ten weight at six months or corresponding weight at lesser age, to be eligible for showing, regardless of marking and nomination.

25% pounds gain per day, 6 months, 2,500 pounds; 20% gain per day, 5 1/2 months, 1,750 pounds; 18 1/3 pounds

Lost—13,500,000 Tons of Raw Materials

More than one third of all raw materials required to manufacture portland cement vanishes in the manufacturing process. This is exclusive of the vast fuel consumption, which averages about 200 pounds of coal, or its equivalent, to the barrel.

Last year cement plants in the United States produced 113,870,000 barrels of cement. This output required the quarrying or mining and transportation, drying, grinding and burning of 35,000,000 tons of raw materials. Of this huge total, 13,500,000 tons which started on their journey through the mills never reached the cement sack.

Many conservation methods and devices are in use in the industry. Yet the inevitable losses, due to transformation of materials under the intense heat in the kilns, total well over a third of all raw materials that go into the plant.

A cement plant covers acres of ground. It includes large buildings full of crushing, grinding, elevating and conveying machinery and huge storage bins for raw materials and finished cement.

But it is in the burning zone of the great rotary kilns—a space 30 to 40 feet long by 7 to 9 feet in diameter—that the greater portion of these millions of tons is lost.

Cement manufacturers have long been carrying on scientific studies to reduce the cost of waste.

This is one of a series of advertisements to acquaint the public with the manufacture of cement.

Our free booklet, "Fifty Years of Portland Cement in America," may interest you. Write for your copy.

Real Estate Values

that will make you money

You desire to buy property that will again sell at the figure you paid for it or more and I desire to sell that practically every piece

much more today than the price
paid for it.

paid for it.
I want to sell you a home or an investment that will make you money.
Good six-room dwelling with lot 50x75 feet, summer kitchen in rear of the house and a very desirable home. This dwelling needs new roof and chimney and the cost of this is small in comparison with the very low price and the desirable terms that we are offering on this property. Just think only \$600 down and the balance at \$100 per year besides the interest. This is much less than the rent we are now getting for this property.
Remodeled house at 1926 Wood street, basement. Lights, gas, hot air heat, hardwood floors, garage, screened porch, all for \$8,900.00 part cash.
A very good cottage at 1968 Loomis street. Just the kind of home you have wished for and the best of all, the price only \$2,500
A very good house at 1503 Prospect. Good location and good price for only \$1,000.

Fine one-acre plot of land and fine house, just at the west end of

Black river bridges. Fine place for chicken farm. has fine chicken houses and good barn and other buildings. A real buy.

Fine house at 2142 Kane street a price that is right. Make us an offer.

Fine house all modern but heat. a 1415 Avon street. Make an offer.

Fine two-story brick building. 1351 and 1353 Caledonia street. with flats upstairs and good store buildings on ground floor. Good in

an offer.

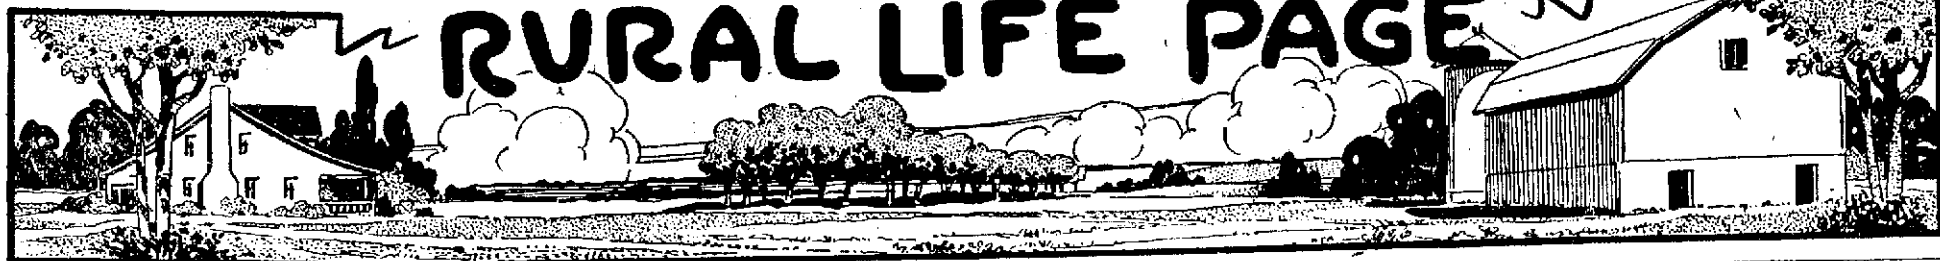

Fine summer cottage at beautiful Sunset Point. This is finely located and a dandy summer home. The scenery anywhere is more beautiful than at this spot. Location at this point are scarce so if you are interested in a fine summer home at low price see me at once.

Joint meeting Salem-Bangor Holstein breeders' clubs, village hall, Bangor, March 8. State "Ton Litor" contest opened March 1. There is yet time to get in on it.

ANNUAL MEETING OF HOLMEN C. T. A. HELD ON FEB. 21

Twelfth Annual Meeting of Association is Held in Holmen Town Hall

The twelfth annual meeting of the Holmen Cow Testing association was held in the town hall at Holmen, Wednesday, February 21, at 8 p. m. This meeting was a combination of the annual meeting and refreshments which were furnished by the Holmen bank, and a program in which several local people took part.

The report of the secretary-treasurer showed that the association had enjoyed a successful year in its efforts to bring about better dairymen. The treasurer's report showed a balance of \$85.36 on hand at the time of the meeting. There is yet nearly \$200 due to the association for the year. There are still a number of unpaid dues which as soon as paid will again leave a small balance in the treasury. During the past year the association did not enjoy quite a full membership (26 full days work). But practically all of the old members are staying with the association for another year and a number of new members are coming in to fill the association to full membership.

This is the first meeting of the association to which the ladies were invited to attend although they have always been welcome. The program was intended to be for the entertainment of the ladies and was not allowed to use more than ten minutes each.

Program

The following program was given after the regular routine of business: Principal A. Anderson gave a talk on the value of the testing association and encouraged the old members to continue testing their herds. The next number was a newspaper including items of interest about the various members and others. The paper was very cleverly written and well given by Miss Vivian Lewis.

Mr. H. Johnson, cashier of the Bank of Holmen, spoke briefly of the relationship of the bank to the farmers and showed how the bank can help the farmers with some of their business problems. Leon Vennes was next to be called upon by the president, Mr. L. T. Lee, and in response he gave an original reading of bits of spicy news items which were especially interesting to the association members.

Mr. McDonald told of the importance of culling the herd by means of the Babcock test and among other things he told why the U. S. treasury department puts the figure of a beautiful woman on the face side of a quarter. If you don't know, ask Mac! In a few well-chosen remarks V. S. Koppie told of the value that the Holmen Cow Testing association has been to the Holmen creamery and that in his opinion much of the success of the creamery was directly due to the high quality of cream that is being produced and furnished by members of this association and their neighbors who in most cases have at one time or another belonged to the association, and that he hoped the good work would continue.

Edgar Bruders, the official tester for the association, was called upon for a few remarks in which he spoke of the splendid cooperation he had received from the farmers. County Agent Spreiter had a hand in the making out of the program so his name was left out, but the president took the liberty of calling on him for a few words. In his brief remarks, Mr. Spreiter emphasized the importance of better feeding and breeding and that we must progress if we are to keep pace with our competitors.

Officers

The following officers were elected: President, L. T. Lee; vice president, K. O. Gaarder; secretary-treasurer, W. E. Spreiter; directors: A. P. Meyer, Abner Angess, James Haug, Albert Kuntson. Edgar Bruders was again elected to serve as official tester for the coming year.

PURE BREDS ARE BETTER, EXPERT BREEDERS STATE

More than 500 farmers and breeders answering all kinds of questions and making suggestions sent out by the United States department of agriculture, and from these replies it has been determined that these men consider pure bred 40 per cent better than a utility stand point than common stock. They say that offspring of pure bred are worth practically 50 per cent more in value than the offspring of grades and scrubs. Also, pure bred were found in nearly all cases to be more readily salable.

MRS. HYATT BACK ON JOB AS COUNTY AGENT SECRETARY

ONALASKA—Mrs. Ferris Hyatt is back at the agricultural school as secretary for W. E. Spreiter, county agent, after being absent three months on account of illness. Miss Miriam Adams, who has been acting as secretary during Mrs. Hyatt's absence, will now take the position as bookkeeper for Professor L. C. Hatch.

EDITOR'S COLUMN

"When tillage begins, other arts follow." The farmers therefore are the founders of human civilization."
—Daniel Webster.

COUNTRY AND CITY

Mr. Farmer, did you ever stop to consider that your success and prosperity depend almost as much on the conditions in your neighboring towns and cities as on your own individual efforts?

If agricultural interests are to grow and prosper, it is absolutely essential that there be a good, steady market for their products close at hand. The closer the market, the bigger the profits to the producer. With a market within easy reach, the expense of transportation and losses in transit are reduced to a minimum, and the producer gets more real profit from his investment.

It stands to reason that, taking the example of our own community, if the people in the city of La Crosse are well paid and prosperous, the farmers of the tributary rural districts will prosper in proportion because of a better market. People will always buy when they can afford to, and the more they can afford to buy, the better it is for all concerned.

Therefore, Mr. Farmer, when you are called upon to perform some task which seems to be of more direct benefit to the "city feller" than to yourself, stop and think it over before you refuse. You can't get along without the city man, any more than he can get along without you. Agriculture is the greatest and most basic industry of the country, but at present it is far from being the most prosperous. Co-operation with your next-door neighbor and with your neighboring townsmen will help a lot toward a greater harvest of profit.

CONCERNING T. B.

County Agent W. E. Spreiter sends us the following strong appeal for the eradication of tuberculosis among swine and cattle:

"Two of the largest packing houses in Wisconsin report that during the week ending February 1, 1923, of the 22,571 hogs slaughtered, 3,000 were tagged for T. B. That means that a little more than one out of every four hogs was affected with tuberculosis. These are direct losses, and these losses are reflected in the prices paid the farmers for their hogs. Hogs are very susceptible to T. B., perhaps more so than cattle. Tuberculosis skin milk, whey and buttermilk are the chief means of carrying the T. B. germs from affected hogs to the human race. If we are to eradicate that tremendous loss then we must do everything we can to remove the cause, which can be done by testing the cattle and slaughtering all reactors and by proper pasteurization of the by-products of the dairy."

Mr. Spreiter presents the financial side, but there is still another thing to be considered. Health department statistics show that more than twenty-five percent of tuberculosis among children is of the bovine type, and that its source is directly traceable to milk from infected cows.

Milk is a great body builder for growing youngsters, when it is pure. When it is not pure it is destructive to life and health.

You wouldn't want to think that your own children had become infected with the deadly disease from your own cattle, would you? Then think of the other fellow, who has no control over his milk supply.

IMPROVED MARKET SEEN IN SALE OF GRADE HOLSTEINS

Sale Held at West Salem on Feb. 28th Well Attended; Price Average Good

That the Holstein market is improving was shown in the grade Holstein sale that O. G. Clark held at West Salem February 28th 1923. The sale was well attended by buyers from outside the state as well as from La Crosse and neighboring counties. Eighty-one head were sold for \$178.70, an average of \$88.72 per head. Seven young purebred bulls including two small calves averaging \$70.71.

J. Quinn of Wilton, Wis., and Ed Erickson of Arcadia, Wisconsin, were the two highest buyers each taking 14 head. J. H. Dale, Galesville, was 2nd taking 10 head, and Mr. B. Durling of Sparta, 3rd, getting 9 head.

The management of this sale was well satisfied with the prices received and on the whole the sale was considered a success in every way.

Nearly 100,000,000 acres of corn is grown in America every year.

STATE SPENDS OVER MILLION AND HALF YEARLY ON FARMERS

Huge Sum Used Annually in Maintenance of Departments Devoted to Improvement

MADISON, Wis.—By The Associated Press.—The state of Wisconsin is spending approximately \$1,500,000 annually for the direct betterment of agriculture through state aid and the maintenance of state departments devoted to the administration of laws intended to improve farming conditions, a report to the finance committee of the legislature shows. In addition approximately \$700,000 on the university college of agriculture and its activities, and \$114,000 for the dairy and food department.

An appropriation of \$1,000,000 to the state department of agriculture is the largest single expenditure. Out of this amount comes indemnities of nearly \$400,000 annually for the eradication of bovine tuberculosis, a large sum for the state fair, and other funds for the administration of various laws affecting farmers.

Markets

The state department of markets, with an appropriation of \$116,000 annually is devoting almost all of its activities to a study of farm problems and to the promotion of projects for betterment of agriculture. Co-operative marketing is receiving particular attention from this department.

County fairs held in the 71 counties of Wisconsin received aid from the state last year amounting to \$241,000. The amount of money expended on these local fairs has increased greatly in the last few years, and is to receive particular attention from the present legislature.

An appropriation of \$40,000 is made by the state for maintenance of county agents, with \$30,000 for aid to small agricultural societies, \$30,000 for aid to county agricultural schools, \$20,000 for branch agricultural stations, \$20,000 for aid to high schools offering agricultural training.

The present legislature is being asked to increase the appropriation to the department of agriculture in order to give it \$1,000,000 annually for indemnities arising from eradication of bovine tuberculosis. This would increase the expenditure for agricultural purposes over \$500,000 annually.

Agricultural Education

Agricultural education at the University of Wisconsin amounting to approximately \$700,000 annually is an indirect aid to Wisconsin agriculture while the dairy and food department appropriation likewise indirectly serves the farmers.

The present legislature has proposed before it to exempt homestead improvements from taxation for a period of five years, to amend the constitution in order to enable the state to borrow money to finance a farm loan program and other measures of special benefit to farmers.

These expenditures and plans for aiding agriculture are said to show that Wisconsin is doing much more than most states to promote the farming industry.

BETTER TANNING OF HIDES URGED TO STOP LOSSES

In calling attention to the need for more study of the care of hides, the making of leather and its cur, the bureau of chemistry of the United States department of agriculture says that better methods of tanning should materially reduce the cost of shoes and harness to the farmer. Country butchers and farmers now supply about 50 per cent of the hides and skins used in this country. Carelessness, lack of knowledge of tanning, curing, selling these hides and skins cause the loss of one-third of the value to the farmer. These losses are at least \$15,000,000 annually.

The long used vegetable tanning materials, which are direct products of the forest and farm, are totally inadequate at the present time, says the department, to supply the country's needs. Through better processes and more intelligent care many millions of dollars can be conserved annually in leather goods. The department of agriculture has published bulletins dealing with the tanning of hides and the care of leather, shoes, harness, belts, etc., to make them wear longer.

INDIAN SCHOOL HAS PRIZE HERD OF WARREN C. T. A.

The January report of the Warrens Cow Testing association shows that the Toulon government Indian school has the prize herd of the organization, taking the first seven places, besides ten places out of the highest twelve. The Indian school's record for butterfat is as follows: 78.9, 66.9, 67.3, 60.8, 58.9, 55.2, 51.6, 58.9, 55.2, 53.2, 51.6, 47.7, 47.0.

331 HOG SALE AVERAGE

NEW LONDON, Wis.—Thirty pure bred hogs sold for an average of \$41 each at the spring sale of the Outagamie County Duroc Jersey association here. The top price was \$76.

WASHINGTON C. T. A. FEBRUARY REPORT SHOWS GOOD WORK

Heaviest Production in History of Association Shown on Last Report

The month of February shows the heaviest production in the history of the association, having 63 cows over 40 pounds of fat, exceeding last month by 28 per cent and 80 per cent more than February, 1922. These increases are chiefly due to better feeding and care, especially in feeding fitting rations where dry. The value of drinking cups were efficiently demonstrated during the inclement weather this month. Much larger drops in milk flow were observed in the herds where drinking cups were not in use.

High Herds

FAIR ASSOCIATION OF MONROE COUNTY IN ANNUAL MEETING

TOMAH, Wis.—At the annual meeting of the Monroe County Fair association of this city, E. E. Wyant was re-elected president, W. E. Boss, hard treasurer, and F. J. Rehberg, secretary. Plans for strengthening the organization were made, and in clubs taking in one hundred new members at \$25 per share. The greatly increased patronage of the fair the past two seasons combined with the general interest shown throughout the county in the exhibits, races and entertainments provided on fair dates, have encouraged the officers and members of the association greatly. More improvements on the grounds and buildings will be made this year and no effort will be spared to make the 1923 fair the biggest and best yet held. This being Monroe county's only fair, it is well patronized.

TRADES PROPERTY IN ONALASKA FOR GEO. PIERCE FARM

C. Weiden has traded his Onalaska property for the George Pierce farm of Green's Coulee which had recently been purchased by Theodore Skog.

Extension Service

In the program outlined for the current year Secretary Odham will meet with the officers of the affiliated county units helping them carry on an extended program of extension work authorized by the National association under supervision of extension workers and the national board.

M'DONALD COW MAKES RECORD

That J. D. McDonald of West Salem, Wisconsin, has cows and the men who know how to handle and feed them in a manner to get the best results is shown in the following report which he just received from Mr. R. Harris in charge of official testing and official records.

Mr. McDonald has some of the best blood lines and best individual Holsteins that can be found in the state. The following official yearly record gives evidence of what some of those well bred and well fed cows are capable of producing.

Goldie Ormsby Wit, No. 351646, is a five-year-old pure bred Holstein cow of splendid individuality, size and type. During a period of a little less than 12 months she produced 27,497.1 pounds or 13½ tons of milk and 921.96 pounds, nearly one-half ton of butterfat which when churned will make 1164.75 pounds of butter. Figuring her 331,905 pounds of butterfat at 455 per pound the average price paid for butterfat by the West Salem Co-operative creamery, where Mr. McDonald sells his cream, her yearly production was worth \$424.00 besides about 12½ tons of skim milk with which in feed pigs and calves.

Her record follows:

Days	Lbs. Milk	Per cent Fat	Lbs. Fat
November 24	1996.1	3.82	76.213
December 31	2756.2	3.06	84.340
January 31	2785.0	3.21	89.495
February 28	2355.3	3.34	78.801
March 31	2467.4	3.49	86.112
April 30	2290.3	3.46	79.139
May 31	2250.8	3.63	81.704
June 30	2245.2	3.95	79.705
July 31	2267.6	3.21	72.780
August 31	2063.2	3.30	68.068
September 30	1904.4	3.33	63.417
October 31	1873.6	3.40	63.702
November 6	325.0	3.50	11.410

27497.1 Lbs. milk—331.905 Lbs. butter—1164.75 Milk, 608.76 pounds, 3.87%—23,498 butterfat.

Goldie Ormsby Wit made this splendid record under ordinary farm conditions. She was milked three times a day but otherwise was given practically the same feed and care that all of Mr. McDonald's cows get.

STATE HOLSTEIN BREEDERS PLAN SEASON'S DRIVE

Meet at Madison March 1. Re-elect Old Officers and Make Plans for Summer

Directors of the Holstein-Friesian association of Wisconsin in meeting at Madison, March 1, elected H. F. Schroeder, West Bend, president; F. H. Everson, Lake Mills, vice president; W. C. Leitch, Columbus, secretary, and L. L. Odham, Madison, secretary. In the re-election of the old officers the following resolution was unanimously carried: "Resolved, that in the unanimous re-election of the old officers, we evidence our absolute confidence in their administration of the association's affairs. We heartily endorse the joint county and state membership plan and the program of work outlined for the current year as proposed by the delegates from the leading Holstein counties of the state at meeting in Fond du Lac, February 6. We pledge our individual and collective support to Secretary Odham and we commend him most highly for his untiring effort to give Wisconsin a real organization duly organized and properly functioning in behalf of the Holstein owners of Wisconsin. We make this resolution a part of the minutes of this meeting and necessary to be sent to the press of the state for publication."

Extension Service

In the program outlined for the current year Secretary Odham will meet with the officers of the affiliated county units helping them carry on an extended program of extension work authorized by the National association under supervision of extension workers and the national board.

FARMERS' DAY AT VIROQUA ON FRIDAY, MARCH 9

Third Annual Vernon County Meet to be Held at Temple Theater, Viroqua

VIROQUA, Wis.—The third annual Farmers' Day is set for Friday, March 9th. An all day program will be given at the Temple theater as follows: 10:00 a. m.—Movie film, "Pick the Laying Hen." 10:20 a. m.—Proper feeding and housing of farm poultry—Prof. J. B. Hayes. 11:00 a. m.—Movie film, "Out of the Shadows," a tuberculosis picture. 11:20 a. m.—Address on Bovine Tuberculosis. 1:00 p. m.—Grading Wisconsin Tobacco—By a state grader. 1:45 p. m.—Address by H. E. Goldsmith. 2:15 p. m.—Tobacco Problems—By Prof. James Johnson. Professor Johnson will also conduct a question box.

The Farmers' Day program is given under the auspices of the Viroqua High School Agriculture club. Professor Hayes of the College of Agriculture in his address will talk on the proper feeding and housing of poultry for winter eggs. Mr. Goldsmith will talk on "Co-operation." Mr. Johnson will illustrate his talk on tobacco with a film which will show how tobacco is raised under canvas in the east.

\$90,400 LOANED IN HOUSTON CO.

CALEDONIA, Minn.—Since the start of the Houston County Farm Loan association in September, 1921, the organization, with a membership of 30, has completed loans for \$90,400 and an additional \$42,400 in loans has been allowed.

BREEDERS' CLUBS TO FOSTER CALF CLUB ACTIVITIES

Monroe County Associations are Behind Work of Boys and Girls

The county Jersey, Holstein and Guernsey breeders' association entertained 15 guests at dinner at the Hotel Briggson Tuesday including six cow testers from different parts of the county. Several other out-of-town guests were also present including: W. W. Clark, W. McNeil, Madison; Mr. Lee, Waterloo, Iowa; Mr. Ascroft, Minneapolis; Erwin Sutton, Augusta, Wis.

After the dinner the whole party went to Mr. Liddle's office where a discussion was had relative to supervising and financing calf club work all over Monroe County. After considerable discussion a committee was appointed to submit a plan to a quarterly supper for the various breeders' associations and cow testers. The plan as finally submitted and adopted asks that each cow tester be responsible for the conduct of a calf club in the community in which he is working. The cow testers will spend much of their time as leaders to properly handle a club and will be paid only enough to cover the expense of their cars in driving around to see the youngsters.

It was estimated that this would take about \$140 and a standing committee consisting of a representative of each breeders' association and the County Agent was appointed to make plans for raising the money for this purpose.

Those present at the dinner and at the meeting were: W. W. Clark, College of Agriculture, Madison; Mr. Lee and Mr. Ascroft, American Jersey Cattle Club; Erwin Sutton, Augusta; Sidney Martin Warren; Leo Richer, Tomah; Herbert Kneel, Cashier; Clayton Kryster, Sparta; Antonio Sousa, Sparta; Delbert Cliff, Kendall; Mr. Hill, Tomah; Geo. J. Weiner, Cass; Van Der Schaaf, Gopher; Liddle, Ames; Herman E. L. Liddle.

DUROC BRED SOW SALE HELD MAR. 2 AT WEST SALEM

The J. W. Thomas & Sons' Duroc bred sow sale Friday, March 2, at West Salem, Wis., averaged \$38.10 on 37 head of bred sows. The top sows of the sale were litter mates, numbers 32 and 36. These sows were sired by Long Pathfinder 120925, and were bred to Pathfinder Orion, Thomas' herd boar. These sows carry the blood lines, type and quality that the breeders of top-notchers like, M. R. Lee of West Salem bought No. 32 at \$75 and No. 36 went to East Triamaine, Oconomowoc, Wis. This was one of the best sales of the season. A large crowd of local people attended, but due to mud and bad roads many buyers who have driven a long distance could not get to the sale. Practically all of these splendid bred sows remain in La Crosse county. H. H. Hoge, La Crosse, was the heaviest buyer, taking six. Colonel E. G. Heberlin of Fenimore, assisted by M. F. McNew and Bartie Dabson, did the selling.

The 1920 corn crop, the largest ever produced in this country, was valued at \$2,150,000,000.

100 Guernsey Cows

SELLING AT

PUBLIC AUCTION

WEST SALEM, La Crosse County, Wis.

Thursday, March 15th

The cows are high grades, fresh, or about to freshen, tuberculin tested and ready for shipment into any state. They are large, in good flesh, with good udders and teats and from three to eight years old. Many have large cow testing records.

A Sale of Producers Don't Miss It

O. G. CLARK AUCTIONEER

H. W. GRISWOLD SALE MANAGER

HOLSTEIN BULLS

We have eight serviceable Bulls 10 to 15 months old, that we would like to see heading Holstein herds in La Crosse County. They are big masculine fellows, nicely marked, sired by our great herd sires "Beauty Ormsby Mercedes" and "Sir Aaltje Pontiac Hengerveld" out of good A. R. O. Dams with records up to 28 pounds of butter in 7 days, and 120 pounds in 30 days. These Bulls are priced so any good farmer can buy them and on easy terms. Do you know what is holding the price down on La Crosse County Holsteins today? NOTHING only the size and poor quality from using inferior bulls.

We can help you out of this rut by using one of our good Bulls, whose Dams and Grandams weigh 1800 to 2200 pounds.

ACCREDITED HERD

J.D. McDONALD West Salem, Wis.
